SELECTMEN'S REPORT

We are pleased to report that the town has no indebtedness. At the close of the year we have a cash balance of \$894.70, taxes with interest amounting to \$2,293.19 to be collected and \$1,000.00 due from the county which is money allotted to the town for road improvement last year.

CHARLES H. MACOMBER,
JAMES M. CALL,
BENJAMIN JONES.

Selectmen.

TOWN WARRANT

For March 21, 1921

Article 1. To see if the town will appropriate any part of the dog fund to the Public Library and make what other appropriation that is necessary.

Article 2. To act on report of town officers.

Article 3. To fix compensation for collector and treasurer for ensuing year.

Article 4. To see if the town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 5. To choose all necessary town officers, one Selectman for three years, one Assessor for three years, one for two years, one School Committee for three years,

one for two years and a Burial Commissioner for three years, one Trustee of Library for three years and one for two years, Town Clerk, three years.

Article 6. To raise and appropriate a sum of money for repairs of ways and bridges.

Article 7. To see if the town will vote to raise and appropriate a sum of money to resurface parts of Myrick street.

Article 8. To raise and appropriate a sum of money for schools, including supplies, high school tuition, salary of superintendent, transportation of scholars and repairs on public buildings.

Article 9. To raise and appropriate a sum of money for support of poor, salaries of town officers, state aid and incidental expenses.

Article 10. To choose a memorial committee and appropriate a sum of money for same.

Article 11. To see if the town will raise and appropriate a sum of money to be used for the purpose of exterminating the Gypsy and Brown Tail Moths.

Article 12. To see if the town will vote to raise and appropriate a sum of money to be used in the cemetery and care of graves of soldiers and sailors of the Civil and Spanish Wars.

Article 13. To see if the town will vote to raise and appropriate the sum of \$1,500.00 to improve Myricks street, providing the State will make an allotment of an equal amount.

Article 14. To see if the town will vote to raise and appropriate the sum of \$1,500.00 to improve Berkley street providing the State will make an allotment of an equal amount.

Article 15. To act on any other business that may come before the meeting.

Caucus Monday night, March 14, 8 p. m.

Town meeting, March 21, at 10 o'clock a. m.

March 25, 1921.

Spring term, 9 weeks, Monday, April 4, 1921 to Friday,
June 3, 1921.

Fall term, 15 weeks, Monday, Sept. 5, 1921 to Friday,
Dec. 16, 1921.

Winter term, 12 weeks, Monday, Jan. 2, 1922 to Friday March 24, 1922.

Spring term, 9 weeks, Monday, April 3, 1922 to Friday June 2, 1922.

Holidays.

New Year's Day, Washington's Birthday, Patriots Day, Memorial Day, Labor Day, Columbus Day, Thanks giving Day and the day following.

SUPERINTENDENT'S REPORT.

To the School Committee of Berkley:

Agreeable to custom I have the honor of presenting to you my tenth annual report. It contains the usual statistics, special reports, comments and suggestions that may be of some interest to the citizens of the town. At this time it may be well to briefly refer to the decade through which we have passed and contrast figures and conditions existing. In 1910 the population of the town was 999. In 1920 the population was 935. Ten years ago 184 pupils were enrolled in the schools of the town. At present 172 are enrolled. This indicates a decrease in population and also in school enrollment of very nearly seven per cent. Ten years ago the enrollment by schools was as follows: No. 1, 25; No. 2, 38; No. 3, 19; No. 4, 10; No. 5, 13; No. 6, 22; No. 7, 57. For the year 1920 the enrollment is, No. 1, 41; No. 2, 48; No. 4, 22; No. 6, 30; No. 7, 36.

A study of present conditions leads to the conclusion that there is no demand for the erection of small school buildings; but that there is an increasing call for centralization and the construction of one modern school building at the common. Such arrangement, aside from providing things modern, would increase the teaching capacity more than three-fold. At no distant day such provision must be made in order to meet the growing demands of the high school. Even a trained, experienced teacher

cannot be over fifty per cent. efficient when she must teach nine grades; how much less efficient is the untrained, half educated teacher. I submit to the citizens of the town that it is not sound business to conduct schools on that basis.

Much is being written and done to render the schools more effective. This effectiveness does not mean only the usual routine of daily school instruction, but it includes also the great movement to Americanize the peoples that crowd our shores from other lands, But more than all else it is to utilize and strengthen all educational forces and activities that out of the present upward struggling mass of mankind may arise an army of men and women so thoroughly equipped that they will prove to be powerful and wise leaders of men. It is not the work of a day or a year to develop such leaders. Foremost in this class stands the real teacher. Because education is the foundation of nearly all that is worthwhile in life, the most earnest effort should be put forth to retain not only the present services of genuine instructors but far more to build up a profession that will appeal to the best thinkers and enlist their services for life.

It may be fairly assumed that the public have begun to realize that the teacher must be justly treated in all respects. The more than eleven thousand vacant schools in this country together with more than one hundred thousand poorly prepared teachers are a conclusive argument for a good wage for the teacher. But this is not all of the paragraph. The teacher must be taken seriously. She must be made a real part of the community in which she lives. She must come in contact with the best minds and characters of her locality. Her working environment must be pleasant and comfortable. To apply this standard to the city only is an unwarranted error. The coun-

try school above all other places should be stressed in everything that appertains to the best education. Some states are already putting their emphasis upon their rural schools. In the near and remote past the stupendous error has been made that the city and village teacher, with her one or two grades, must be paid a far larger salary than her sister teacher who daily gives instruction to nine grades in a rural school. Not a single word can be spoken in its favor. The onus is upon the school authorities to devise and apply the proper remedy. When this nation is spending nearly three times as much on luxuries as on education, not a murmur ought to be heard over higher tax rates that may result from putting more emphasis upon our schools. I have unlimited faith and assurance in the great American public who have never yet failed to rise to the level of doing their whole duty when there was a worthy and just call. There is not the least room for pessimism. It is an American characteristic to delay action until the question has been thoroughly thought through and then to arise and apply the proper remedy. But we as genuine Americans must not delay action any longer. Such mighty and personally vital factors are involved in this whole problem, that unless the proper solution is reached every lover of this his native land will feel undesirable effects. These facts apply to this town now. The making of the school budget another year will indicate whether we purpose to advance or recede. Either the one or the other we shall do willingly or unwillingly. At this point it may not be inopportune to say that we do not claim the schools are ideal. But we assert that earnest effort is being made to do good constructive work. Work that will stand the test of use and indicate the faithfulness of the teachers. However, fidelity, to service is not all there is to any position. If we expect better teachers,

and surely many of the schools need them, then the salary must be inviting for at least two reasons: First, to attract the rightminded young man or woman to the profession; second, to enable the teacher by special courses at summer schools or Saturday courses at some university to keep abreast with the most advanced thought of his department. Furthermore the parent must be educated up to the idea that the teacher is both able and willing to give her best for the progress of the normal child. At the same time the parent must enter into hearty co-operation with the school in order to make it of the utmost benefit to his child. Yet, though the teacher and parent may use their best efforts to give their children that which is their due, unless there is enough public mindedness to furnish an environment that is not only properly educative but morally uplifting, most of the work of parent and teacher will be lost. In view of the educational facts that are so prominent in our country, this idealism is needed. It has made us a nation of thinkers, whose chief ambition has been *to be* rather than *to do*. But surely in the greatest crisis of modern action, the American nation that has been trained on that basis has proved itself a great doer of mighty deeds.

It is a pleasure to express our thanks to the school committee, teachers and all others who have aided in making the school work of the year pleasant and successful.

Respectfully submitted,

MORTIMER H. BOWMAN,

Superintendent of Schools.

Berkley, Mass., Dec. 31, 1920.

BERKLEY, MASS., DEC. 31, 1920.

Mr. M. H. Bowman, Superintendent of Schools:

Dear Sir: The attendance in the Public Schools has improved in the last year. In some of the schools the children have shown a greater desire for perfect attendance.

Schools No. 1 and No. 6 have had a great amount of sickness, thereby causing a lower record than usual.

I have been called three times to investigate a case of truancy at school No. 4, and once at school No. 6.

Respectfully submitted,

NOAH H. STRANGE,

Attendance Officer.

REPORT OF SCHOOL PHYSICIAN.

To the Town of Berkley:

In my annual inspection of the schools I found the following:

12 Cases of enlarged tonsils.

26 Cases of head lice.

Respectfully yours,

L. E. BUTLER, M. D.

Late winter term, 7 weeks, Monday, Feb. 26, 1923 to Friday, April 13, 1923.

Spring term, 6 weeks, Monday, April 23, 1923 to Friday, June 2, 1923.

Holidays.

New Year's Day, Washington's Birthday, Patriot's Day, Memorial Day, Labor Day, Columbus Day, Thanksgiving Day and the day following.

SUPERINTENDENT'S REPORT.

To the School Committee of Berkley:

As this is the first that I have written and as I have been here a short six months, I shall not try to occupy your attention with any but the main facts of the work itself and make recommendations that I honestly think would be for the betterment of the schools of Berkley.

Appended to this report are those of the school physician and the school nurse. I ask you read each carefully.

The main topic for conversation this fall has been the health work. Without any doubt, this same question has been raised all over the state, "Why do they make us do these things, and why should small towns be obliged to stand such expense as they are now called upon to do?"

Yes, gentlemen, and citizens of Berkley, we are certainly called upon to stand a great deal of expense that at first seems out of proportion to our financial standing; but we cannot go back of the reports made of these very children who have been examined. A few years ago, it was thought that every body had to have certain diseases, like whooping cough, measles, chicken pox, etc., and practically no attempts were made to make such diseases less communicable. The result was that each and every town was "paying the fiddler" in expenses connected with health work—expenses that could be avoided. So the first thing that was established was a board of health and

the duties of that board of health were many and exacting. To go over along period—we now have a state board of health that is working on measures to increase the healthful conditions of every community. One of the latest measures is to have supervised health work in the schools through the school nurse.

The law states that a superintendency union may unite in having a school nurse, and thus divide the cost in the same proportion as the expense of the superintendent is divided. She is allowed, also, by law, her expenses of travel.

I have taken up this matter of cost with the state authorities and with other superintendents, to learn how we compare with other places. I find that we are paying a very moderate salary to Miss MacIntosh and that her expenses of travel have not been what many other towns have had to pay. This is due to the fact that Miss MacIntosh has been very conscientious in her work and has not been doing little extras that unduly increase the expense column.

Both she and I realize that in order to get the best results, we must first gain the confidence of the parents and citizens. That, I may remark, is not the easiest task in the world, for when a measure is forced upon a community, we feel a little of the blood of our revolutionary ancestors stirring and we ask ourselves if we have nothing to say in these matters.

However, let me call your attention to some things that you, parents, should think over earnestly. If we are obliged to do this work, is your town getting its money's worth by half doing the work? Is it a help to sneer at the work and make it as embarrassing as possible in public places? Is it not better to have cooperation, to have the school nurse feel that we will do everything within our power, financially, to assist.

Cooperation is absolutely needed in Berkley. We have had some very fine examples of co-operation on the part of the parents, but we have also had some cutting things said and done by a few who have no children in schools. I cannot blame people for feeling that the burden of taxation is heavy and I appreciate how it is to pay heavy taxes when their income may not be what it was a short time ago; but why take it out on the school workers and make any of them uncomfortable? If there has been a mistake, the Legislature is the place to do the correcting. We are going to go ahead and give to the children the best that we can and carry out the provisions of the law to the best of our ability, trusting that the results will show that this work is surely worth while.

I honestly think that within a short time you will commence to see results that are gratifying and you will not be willing to give up this health work, even though the law should be repealed. That has been the experience of every place where this work has been done for any length of time.

I would like to call the attention of the parents to the fact that Miss MacIntosh stands ready at any time to consult with you and give you her opinion regarding proper feeding, health, exercises that will improve the health of the child, and anything that pertains to the work of the child in school. That is, we are making house to house visits where needed or required, and while the nurse is not allowed by law to diagnose a case or to treat what should be attended to by a physician, she is ready for consultation at all times.

Now about results—what has been done this fall? You can see what cases have been brought to our attention and when I add that we have also caused two cases of scarlet fever to be quarantined, one case of probable dip-

theria isolated, and more cases of septic sore throat taken from the schools, you may be sure that those cases alone might have caused your district more than the salary of the nurse would amount to in three years.

May I ask therefore, the co-operation of the officials of Berkley and of parents and citizens, in making this health work a success—in at least trying to carry out the suggestions of the nurse regarding the health of the children. I am not going to ask for a lot of money to be put out in apparatus for the schools, but we do need a few small things that will be of more than ordinary value in the school rooms. First, please grant to the children the use of suitable drinking fountains or pails. Give to the school the proper facilities for preventing the spread of disease, Some of the physical needs of the buildings, I shall take up later in this report.

New Legislation in View

I think it is proper at this time to speak of a possible act coming before the Legislature this winter. It is proposed to raise the minimum school age to sixteen instead of fourteen as it is at present. Personally, I do not consider this is the time to make such a radical move. It will undoubtedly come in the future; but with the economic conditions as they are, we cannot afford to allow such a measure to pass unnoticed or unopposed. Let me call your attention to the fact that it will mean (a) more than double the present high school cost because the pupils who graduate from the grammar grades will be obliged to attend high school for from one to three years; (b) the cities will not be able to accomodate the pupils sent from the smaller towns to the high school, and a high school will have to be built for the district; (c) we shall have to apply the law which says that if a pupil is three years under grade and there are twelve in a town, those pupils will have to

receive instruction from a special teacher and a special room must be fitted for her; (d) your present transportation will be increased very materially and you will be obliged to have several new buildings erected in the town to care for all the pupils in attendance.

Teachers.

Only one school had many changes last year, and as I was not here as your superintendent, I can give no excuse for those changes. Others know the reasons better than I.

I trust that we shall see an improvement in the conditions relative to securing teachers for small town schools. In the past it has been difficult for superintendents to secure the best for smaller towns, as there have not been normal school graduates to go around. The enrollment at the normal schools has increased and I hope that we shall be able to get teachers very soon, who are trained. We need them sadly, as it is not fair to the children to have the schools as experiment stations for high school graduates. I speak only in terms of praise for the efforts of those who are working this year. I think they are all working hard and have shown a fine spirit of cooperation. But, if they had training, they would be far more valuable to the town. I shall urge them to make more of their opportunities and get that training, and I hope in the near future to see none but normal school graduates in the schools.

Care of Buildings

I have been somewhat surprised to find that only two schools in town have been furnished with dustpan and brushes this year. The use of bits of shingles and the borrowing of brooms from neighbors is not quite the thing in a modern school room. Expenses of this kind are necessary and should not be withheld. If it is that there was not money enough appropriated, why not ask the parents to go to the schools before town meeting and see for themselves just what the needs are, and then ask

them, in turn, to vote for a reasonable amount for good care of the buildings.

Among other repairs, listed under physical needs of buildings, I might mention door knobs, locks, desks, new doors, curtains, clocks, plastering, painting, chairs, keys, and many other items. These are absolutely needed. There are two schools that a state inspector would shut up tight today if he were to visit. On these schools are doors that are fastened by dead locks or hooks. Under the regulations of the District Police, the rule as to egress doors is, "Single doors shall have night latches, operated by a full-size T-turn, knob, lever or push bar, and no bolts hooks or dead locks shall be used."

May I suggest that the corrections be made as soon as possible as I have already been notified that an inspection of all buildings may be made early in the Spring.

In closing this report, I wish to thank you for your support of the past six months. If there is anything in this report that seems too frankly spoken, please remember that I am working for the interests of the school children of Berkley and can see, from a comparative viewpoint, where your system can be vastly improved by a better outlay of your finances.

I would urge a systematic keeping of records of the finances and that in your financial reports hereafter, you give a detailed account of the money spent, with an estimated account of what is needed for the coming year. If the people have an opportunity to study such a report they can go into town meeting with a more intelligent idea of how to vote. One cannot blame anybody for refusing to vote money blindly. Be frank with the voters and they will do honestly by the schools, I firmly believe.

Respectfully submitted,

WALTER K. PUTNEY,
Superintendent of Schools.

Berkley, Mass., Dec., 31, 1921

Mr. Walter K. Putney, Superintendent of Schools:

Dear Sir: During the school year I was called four times to investigate non attendance of pupils in schools Twice at No. 2 school and twice at No. 6 school.

Respectfully submitted,

NOAH H. STRANGE,

Attendance Officer.

REPORT OF THE SCHOOL PHYSICIAN.

To the Town of Berkley:

In my annual inspection I found the following conditions:

13 cases of enlarged tonsils,
26 cases of head lice,
1 case of ring worm.

A large number of children need teeth looking after and several were under nourished.

Respectfully submitted,

L. E. BUTLER.

REPORT OF THE SCHOOL NURSE.

Mr. Walter K. Putney,
Superintendent of Schools,

Dear Sir:

I have the honor to submit the following report as school nurse from September 1st to December 31st.

Total number of school visits in the district, 197; home visits, 99; visits to home and school with physician, 3; visits to home with attendance officers, 5.

Number of tuberculosis found, 2 (diagnosed at T. B. clinic); chicken pox 1; whooping cough, 10.

Children have been excluded from school for conjunctivists (pink eye), ring worm, scabies, pediculosis (head lice), impetigo, acute colds, septic sore throats, and suspicious eruptions.

I feel that considerable progress has been made in the sanitary conditions of the schools, but more could be made by installing the individual paper drinking cups, paper towels, etc., so as to safeguard the health of the children. I also feel that this district should have some clinic center and in that, together with "follow-up" work in the homes, much could be accomplished especially in such cases as anemias, pretubercular condition, enlarged glands, defective hearing, defective vision and many other minor defects, easily recognized.

I extend my appreciation to the committees, superintendent, principals and teachers for their kindly cooperation.

ALICE B. MACINTOSH, R. N.

Extermination Gypsy & Brown Tail Moths	50.00
Schools and Supplies,	11,145.00
Support of Poor,	1,500.00
Town Officers,	1,500.00
Incidental Expenses,	2,500.00

SELECTMEN'S REPORT

The town has no indebtedness and there is a cash balance of \$3,832.78 on hand. There is due the town for taxes and interest on same \$4,997.51.

Last year the town voted to discontinue the office of road commissioners so as to obtain the benefit of an act which provides for assistance from the state to towns of less than three million dollars valuation, for road construction and maintenance. Under the provisions of this act we received from the state an amount of money equal to the appropriation of the town and also supervision by the state's engineer, with no expense to the town, which has been a great help in the care of our roads. With this arrangement the money we receive from the state is just so much more added to our own appropriation and expended on all roads as needed. The engineer goes over the roads, carefully estimates the amounts necessary to fix them and then sees that the work is properly done, the results are better roads and the state pays half the bills.

The oyster privilege has been renewed with George T. Green Jr., of Warren, R. I. for \$250.00 which he has paid in advance, it expires in June 1927.

CHARLES H. MACOMBER,
LAWRENCE B. SWIFT.

Selectmen

TOWN WARRANT

For March 19, 1923

Article 1. To see if the town will appropriate any part of the dog fund to the Public Library and make what other appropriations that are necessary.

Article 2. To act on report of town officers.

Article 3. To fix compensation for collector and treasurer for ensuing year.

Article 4. To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 5. To choose all necessary town officers, one selectman for three years, one assessor for three years, one school committee for three years, one trustee of library for three years and one burial ground commissioner for three years.

Article 6. To raise and appropriate sums of money for ways and bridges.

Article 7. To raise and appropriate a sum of money for schools, including supplies, high school tuition, salary of superintendent, transportation of scholars and repairs on public buildings.

Article 8. To raise and appropriate a sum of money for support of poor, salaries of town officers, state aid and incidentals.

Article 9. To choose a memorial committee and appropriate a sum of money for same.

Article 10. To raise and appropriate a sum of money to be expended in suppressing the gypsy and brown tail moths.

Article 11. To raise and appropriate a sum of money to be used in the cemetery and care of graves of soldiers and sailors of the civil and spanish wars.

Article 12 To authorize the appointment of a committee to investigate the feasibility of a forest for each town.

Article 13. "Shall the town petition for the installation of an accounting system by the commonwealth? (This question is submitted under the provisions of Chapter 516, Acts of 1922.)"

Article 14. To act on any other business that may come before meeting.

Caucus Tuesday, March 13 from 3 o'clock until 7.30 P. M.

Town meeting, March 19, at 10 o'clock A. M.

AUDITOR'S REPORT.

Berkley, Jan. 1923.

Holidays.

New Year's Day, Washington's Birthday, Patriot's Day, Memorial Day, Labor Day, Columbus Day, Thanksgiving Day and the day following.

REPORT OF THE SCHOOL COMMITTEE

The School Committee recommends that the Town appropriate the sum of \$13,925.00 to run the schools for the year 1923.

On account of up to date books, which should be put in the schools, expense of Continuation Schools, increase in prices of supplies etc., we have itemized the above amount so the tax payers and citizens can plainly see why we need so much money to run the schools properly for the year 1923. Teachers, \$6,150, Books and Supplies, \$1,500, Janitors, \$400, Repairs, \$500, Fuel, \$400, Transportation, \$600, High School Tuition, \$2,400, High School Transportation, \$700, Nurse and Expenses, \$380, Superintendent and Expenses, \$620, Census, \$10, Attendance Officer, \$15, School Doctor, \$100, Continuaton School, \$150.

Teachers' Names and Wages.

Spring Term, 21 Weeks.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Committee of Berkley:

I submit to you my second annual report as superintendent of schools.

Appended to this report is that of the school nurse and the various tables of statistics.

The Right Policy.

Berkley has come to the parting of the ways, so to speak. We are all hunting for the right policy to follow in order to bring the schools up to a standard that will enable the pupils to enter high school, as the law requires we should do.

At the last town meeting a committee was appointed to look into the matter of erecting a four-room building. I trust that that committee will make a report that is exhaustive and that they will give to the citizens of Berkley a clear, concise report of conditions as they exist, not as the citizens wish they might.

For the past year it has been brought clearly to me, on several occasions, that the Berkley pupils are not getting what they should in the way of an education. Many complaints, from teachers, and parents alike, have been made that our text books are out of date, unusable and that in many classes the children studying supposedly from the same book have such different editions that a uniform lesson is out of the question.

Last year, at the town meeting, the sum of \$950 was asked for and raised for books and supplies. Of that sum, less than \$350 was spent this year. The remainder had to be used to meet set costs elsewhere in the department. Had we been able to have the full sum asked for by your superintendant last town meeting, instead of having the corrected estimate ignored at the final vote, we would have been able to care for our book needs to a great extent. In the past, it has evidently been the custom to ask for little and spend what the needs called for. Today, under the new laws, towns are not supposed to overdraw one cent on their appropriations. In the old days, we could "get along" with just as little as possible and let the deficits run over year after year without appreciably increasing our annual budget. This was called "economy"

Parents and citizens, this is NOT economy in any sense of the word unless we call it, for lack of a better name, false economy. You should pay your bills as you go along and not have any dead weights to sink the schools. We should have at least \$2000 to give to the Berkley school pupils the proper material with which to work. We should give to those children a full new set of readers, geographies, histories, physiologies, spellers, and reference books for every grade in every school.

I realize that this is impossible, but it is possible to stamp out the spirit of false economy and give sensibly each and every year toward keeping up your book lists and supply needs. That is the **right** policy.

The Need for Better Schooling.

Many, who have no children in schools, will repeatedly ask the same old question, "Why is it necessary to have so much learning and spend so much money on the public schools? When I was a boy, we had half as much as the children have now and we got along all right"

It is an old slogan and will be sung by false economists as long as towns exist. It is true that fifty years ago one did not have to do half that is required of the schools today. It is also true that in every phase of life the same ratio exists. It is not the schools alone that have had to be uplifted. Could the high school prepare for college or normal school with the same curriculum as was in use even thirty years ago? No, and you all realize it. You must realize that your own school work must be uplifted, if you are to enjoy much longer the privilege of sending pupils to any of the surrounding places.

Nor is it the grade of work that is being done that may cause trouble. It is the fact that the junior high school is coming and will soon be right near us, in Taunton. With its coming, the pupils will be obliged to attend in order to complete the work needed for entrance to senior high school. The lines are drawing tighter and tighter. We are being obliged year by year to strengthen our own position and prepare our own town children in a proper and sensible manner.

If we can put in trained teachers, house the children in a four room building and make the work really worth while, we can prepare the pupils for high school. As long as you have scattered rural schools, with inexperienced and untrained teachers, you can never prepare the pupils rightly for high school or elsewhere.

Do not think that I am censuring the present force of teachers, for that is not my purpose. They are working honestly and hard to accomplish what no person on earth can do—prepare properly and fittingly for further education. With eight grades to handle, all conditions to face, improper janitor work, lack of facilities for good, healthful work, and with no boarding places available, no experienced or trained teacher will accept positions as teachers in the rural schools

and we are now obliged to depend upon the town girls for positions.

If we can have a four room building erected, we can transport the pupils to that building and give them the benefit of trained teachers, two grades only to a room and an atmosphere that will encourage and hearten the children.

I firmly believe that ninety percent of the pupils who leave school do so because the school room has become a jail to them, when they can recite only for about one-tenth of the day and where they have to with-stand the monotony of sitting quiet while the others are reciting the greater part of the day. The boys and girls of Berkley have been accustomed to rugged, out-of-door life, and they must have some attractiveness with their work if they are to enjoy it. If the work is wearisome and uninteresting, there will be trouble in a school as long as that school exists. If we fail in our duty and do not provide the teachers with the proper books, supplies, supplementary materials, etc., we simply invite that trouble. Many criticisms have reached my ears of the difficulties of discipline that have beset many of our schools. The reasons may be found in what I have stated above. Rather than supply criticisms of the teachers let us furnish the proper materials with which to work and give them a fair chance!

The need for better schooling is recognized by every wide awake, up-to-date parent and business man. No better evidence of this is needed than in the statistics of the high schools of this state. Last year there has been an increase of 16.5% in the enrolment in high schools throughout the state and the grade increase has been the normal $2\frac{1}{4}$ %. We are living in a time of progress. Everything moves and nothing is standing still. Business men fall by the wayside who do not bring their goods up to standard. Schools fail miserably if they, too, are allowed to stand still or travel at a minimum pace while those around are going at full pace set by the demand of the times.

We have placed another teacher at Myricks and thus increased the efficiency of that school. Some made vehement protests against this good movement, but the committee wisely did the right thing and opened the spare room. This room should not be closed again even if the number of pupils does fall below 50. The work is what counts and no teacher can do justice to herself or to her pupils if she has to handle eight grades and forty children.

At Burt's Corner, Skunk Hill and the Common, changes were made in the teaching force and we have had no further changes during the fall term. The list of teachers with changes made, appears among the tables of various kinds.

Repairs are still badly needed in many of the schools and I am afraid that if some of the temporary repairs done this past year were to come under the inspection of the state officer, that work would have to be done over again. I never could see any object in "patchwork" on a school building. Some of the floors have been mended by simply nailing boards over holes, leaving a fine place for the pupils, teacher and others to stumble. If the wrong party stumbles, some day, the town will face a law suit for damages. I would recommend that in the future, the repairs be well done and that no projecting boards or raised boards be left to do possible injury.

In closing this report, I wish to make myself clear in the matter of criticism. It is easy to criticise and I find that it is hard work not to do so to an even greater extent than I have done in this report. I do not wish to have the people of Berkley think that I am extravagant, but it is time that we all waked up to the fact that for several years, at least, the policy has been a bad one, fostered, evidently by those who do not realize true educational conditions and try to save every cent they can for the tax payer. The tax payer has to pay in the end and his payments will be far greater

if these petty neglects and the lack of proper furnishing of school materials continues. I do not recommend extravagances or fads; but I do recommend a good, wholesome policy of fair play for the children of Berkley!

Thanking you for your kindly support of this past year,
I am,

Sincerely,

WALTER K. PUTNEY,

Superintendent of Schools.

Berkley, Dec. 31, 1922.

Mr. Walter K. Putney, Superintendent of Schools:

Dear Sir: During the school year I have investigated the non-attendance of pupils in the following schools:

Twice at School No. 7.

Twice at School, No. 6.

Once at School, No. 4.

Once at School, No. 2.

Respectfully submitted,

NOAH H. STRANGE,

Attendance Officer.

REPORT OF THE SCHOOL NURSE.

Mr. Walter K. Putney,
Superintendent of Schools,

Dear Sir:

I have the honor to submit the following report for the year ending December 31, 1922.

Total number of school visits	487
Total number of home calls,	464
Home calls with physician,	3
Home Calls with Attendance Officer,	1

Pupils have been excluded from school for the appearance of measles, chicken pox, scabies, acute colds, scarlet fever, mumps, tuberculosis and pediculosis.

Several have been operated upon for adenoids, tonsils and membranous nasal trouble. An encouraging number of defects have been remedied in this way and more encouraging is the fact that several parents of their own volition have taken their children to doctor or hospital for operations to remedy such defects. Eye and ear troubles as well as those of the teeth have been cared for.

Two clinics were held in Berkley and one in Rehoboth. The Dighton clinics were postponed owing to epidemics of measles and scarlet fever. At these clinics more than 135 children were examined, 23 were what are termed suspicious cases of tuberculosis, requiring treatment and follow-up work afterward. Among other ailments, causing illnesses

for the children, were 61 cases of adenoids or tonsils, 3 curvature of the spine, 1 chest deformity and displacement of the heart and 1 elongated palate.

In Dighton, at the Flat Rock School, hot cocoa is to be served this winter and I would urge that other schools follow this example, as it sure to work out for the great advantage of pupils who bring their lunches.

I trust that the clinic work will be again carried on this coming year and that parents will not hesitate to bring in the children as recommended by me at times. This work is becoming recognized as one of the best possible ways in which to insure corrective measures to be carried out and the health of children restored.

Thanking you, the members of the school committees and the teachers for their kindly cooperation, I am,

Yours truly,

ALICE B. MACINTOSH, R. N.

HIGH SCHOOL PUPILS—TAUNTON.

Seniors—Milton Babbitt, Reva Haskins, Calvin Staples.

Juniors—Hazel Campbell, Carlton Cummings, Leslie Ferrier

Sophomores—Earland Brailey, Doris French, Marion French.

APPROPRIATIONS FOR 1923

Memorial Day,	\$35.00
Library,	350.00
Care of Graves of Soldiers and Sailors of the Civil and Spanish Wars,	100 00
Exterminating Gypsy and Brown Tail Moths,	300 00
New School House Building Com.,	250 00
Improved Old Roads,	1,500 00
Highways,	2,150 00
Incidental Expenses,	2,500 00
Support of Poor,	1,500 00
Town Officers,	1,500 00
Schools,	13,925.00
New Road in Front of Town Hall,	300.00

SELECTMEN'S REPORT

The town's fiscal year closed Dec. 31, all bills are paid and there is a cash balance of \$2,502.55 in the treasury.

The unpaid taxes plus the interest on same amounts to \$5,177.22.

The town appropriated \$2,150.00 for general road work and \$1,500.00 for oiling roads. We would recommend the same appropriation for 1924, if we do this the state will give us \$3,225.00 for roads and we probably can get the Public Works Commission to make us an allotment of \$1,500.00 for oiling.

CHARLES H. MACOMBER,	}	Select-
LAURENCE B. SWIFT,		
FRANS H. SILVAN,		
		men

TOWN WARRANT

For March 17, 1924

Article 1. To see if the town will appropriate any part of the dog fund to the Public Library and make what other appropriations that are necessary.

Article 2. To act on report of town officers.

Article 3. To fix compensation for collector and treasurer for ensuing year.

Article 4. To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 5. To choose all necessary town officers, one selectman for three years, one assessor for three years, one school committee for three years, one trustee of library for three years and one burial ground commissioner for three years, town clerk for three years.

Article 6. To raise and appropriate sums of money for ways and bridges.

Article 7. To raise and appropriate a sum of money for schools, including supplies, high school tuition, salary of superintendent, transportation of scholars and repairs on public buildings.

Article 8. To see if the town will vote to build a school-house and appropriate a sum of money for same.

Article 9. To raise and appropriate a sum of money for support of poor, salaries of town officers, state aid and incidentals.

Article 10. To choose a memorial committee and appropriate a sum of money for same.

Article 11. To raise and appropriate a sum of money to be expended in suppressing the gypsy and brown tail moths.

Article 12. To raise and appropriate a sum of money to be used in the cemetery and care of graves of soldiers and sailors of the civil and spanish wars.

Article 13. To act on any other business that may come before the meeting.

Caucus Monday, March 10 at 7.30 P. M.

Town meeting, Monday, March 17, at 10 o'clock A. M.

AUDITOR'S REPORT.

Berkley, Jan, 1924.

As Auditor of the Town of Berkley, I have examined the Treasurer's accounts and find on file all necessary orders of the Selectmen for money paid out.

The books show:—

Money received from all sources,	\$48,544 .24
Bills paid,	46,041 .69

Winter term, 7 weeks, Wednesday, January 2, to Friday, February 15, 1924.

Late winter term, 7 weeks, Monday, February 25 to Friday, April 11, 1924.

Spring term, 6 weeks, Monday, April 21, to Thursday, May 29, 1924.

Fall term, 16 weeks, Wednesday, September 3, 1924, to Friday, December 19, 1924.

Winter term, 7 weeks, Jan. 5, 1925 to Friday, February 20, 1925.

Late winter term, Monday, March 2, to Friday, April 17, 1925.

Spring term, 6 weeks, Monday, April 27, to June 5, 1925.

Holidays.

New Year's Day, Washington's Birthday, Patriot's Day, Memorial Day, Labor Day, Columbus Day, Thanksgiving Day and the day following.

REPORT OF THE SCHOOL COMMITTEE

The School Committee recommends that the Town appropriate the sum of \$14,725.00 to run the schools properly for the year 1924.

We have itemized the above amount so that the tax payers and citizens can see why we need so much money for 1924. Teachers, \$6,400.00, Superintendent and expenses, \$1,160.00; School Nurse and Expenses, \$380.00; School Doctor, \$100.00; Janitors, \$400.00; Repairs, \$400.00; Fuel, \$550.00; High School Transportation, \$950.00; High School Tuition, \$2,300.00; Transportation in Town, \$700.00; Books and Supplies, \$1,300.00; Continuation School, \$50.00; Attendance, \$15.00; Census Officer, \$20.00

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of the Town of Berkley:

To the School Board:

It is a pleasure to present to you my first annual report on the condition of your schools.

School Enrollment

The accompanying table shows the distribution of the pupils in the various schools by grades. It clearly shows that three schools are so small that they are not economically run at the present time. The other schools are larger and more economically administered.

TABLE A

Schools	Teachers	Boys	Girls	Tot'ls	Grades
No. 1	Anna Gearon	12	18	30	I, II, III, IV, V, VI, VII
No. 2	Annie Z. Birks	17	24	41	Every Grade
No. 4	Edith L. Chew	10	7	17	I, II, IV, V, VI, VII
No. 5	Mildred Ashley	9	4	13	I, II, III, V, VI, VIII
No. 6	Sybil P. Cushman	10	11	21	I, II, III, IV, V, VII, VIII
No. 7	Addie M. Blood	11	12	23	V, VI, VII, VIII
No. 7	Mary L. McLear	14	14	28	I, II, III, IV
Totals		83	90	173	

Consolidation.

It is very desirable to consolidate the schools in the Assonet Neck, Algierene, Skunk Hill and Burts Corner Districts, in a large four-roomed school near the Berkley Common to include the Common School for the following reasons:

1. Consolidation holds the best people in the town and attracts other desirable families.
2. Thorough school work is impossible when one teacher has a seven or eight grade program. Consolidation would correct this.
3. The program of studies is so narrow that it is wholly inadequate to meet needs of the present time. Consolidation would provide a well graded school, and a program which would help the boys and girls.
4. The condition of several of these schools in regard to ventilation, lighting, sanitation, and even temperature, is so poor that in all probability if an inspection were made, they would be condemned for school purposes. Consolidation and housing in a new up-to-date school building would eliminate these evils.
5. Because of the desire of many to secure good school advantages for their children, they move to places known to have good schools. I believe that if something is not done soon to improve conditions some of the best Berkley families will either move away or send their children elsewhere to school. Consolidation would check this, and because of its tendency to attract other good families to the town it increases the value of property.
6. It has a tendency to make social life more attractive for young people. It is often the lack of this that causes people to leave the country.

7. The attendance would be better than in all of the separate schools combined.

8. One teacher and several janitors could be eliminated.

9. The consolidated school would probably cost no more per pupil per month than the one-room school.

10. Transportation enables children to arrive on time dry and warm, and eliminate many personal difficulties which are apt to arise in going to and from school.

11. The greatest advantage of consolidation is that the best educational results are realized in a graded school at the minimum of cost.

For these reasons consolidation is to be advocated if we would give the boys and girls a square deal.

The Teaching

Under the conditions which are very poor the teachers are doing as well as can be expected. But the system is dead wrong, and good results are unattainable until conditions are improved. As far as the needed equipment is concerned, I endorse the report of my predecessor, Mr. Putney. An exception may be made of the Myricks School, where the teaching and conditions are such as to rate the school a credit to the community.

School Attendance

In the Skunk Hill district the attendance has been more irregular than necessary. The parents should cooperate with the teacher and show the children the importance of regular daily attendance. It is a great detriment to the child himself and also to the school as the work of the class is impeded with excessive absence. Those of us who know

how little the children get at best regret this condition, and shall do all in our power to enforce the attendance law. Enforcement of the law however involves an expenditure of money which should not be needed if the public supported and helped to enforce the law. It should be remembered that the children are the losers in the end.

Age and Grade Distribution.

The following table shows how the children are distributed by age and grade for the entire town.

TABLE B

	I	II	III	IV	V	VI	VII	VIII
5								
6	14	2						
7	7	11	4					
8	3	8	8	3				
9		2	5	11	5	1		
10		2		9	8	9		
11			2	4	3	4	4	
12				1	2	6	3	4
13				3	2	2	8	5
14						1		1
15						1		2

Pupils of ages represented by the bold faced figures are normal. That is they are average, those above and to the right are somewhat advanced for the group as a whole, and those below and to the left are somewhat slower or retarded as compared with the whole number of pupils. The numbers at the left-hand side of the table represent years of age, and the Roman numerals the grades. The table shows an average amount of acceleration and of retardation.

The New Courses of Study.

The new course of study will help to make more uniform the elementary education which the boys and girls receive. In some districts it is difficult to provide reference material and I recommend that a few good books of reference be placed in the library with the cooperation of the Library committee. There is no justice in providing some children much better educational facilities than others. The principle of equality of educational opportunities should prevail in the administration of the public schools, so far as this is possible. If this is done, and the course of study is accomplished each year, there should be no difficulty for the children to meet the requirements of the neighboring high schools.

In conclusion, I want to express my appreciation of the cooperation which the committee, teachers and parents have rendered. It is the combined effort of all forces for the development of the boys and girls that counts in the long run. It should be remembered that the schools are after all only one of the educational agencies, and they can make the best showing when all interested cooperate fully for the preparation of our boys and girls for the problems and responsibilities of life.

Respectfully submitted,

NORMAN J. BOND,

Superintendent of Schools

Berkley, Mass., Dec. 31, 1923.

Mr. Noran J. Bond, Supt. of Schools:

Dear Sir—During my service as Attendance Officer (March to January) I have been called to investigate non attendance, once at No. 5 and once at No. 7.

Respectfully submitted,

STEPHEN A. DOW.

REPORT OF THE SCHOOL NURSE

Mr. Norman J. Bond, Supt. of Schools, Berkley, Mass.

I have the honor to submit the following report as school nurse for the year ending Dec. 31st, 1923.

Number of school calls,	117
Number of home calls,	112

Pupils were excluded for appearance of Mumps, Measles, Whooping cough, pink eye, chicken pox, scabies, impetigo and pediculosis.

With the exception of the epidemic of whooping cough—Confused to two schools—in the fall of 1923 the health of the pupils, show improvement over previous years. It is felt that the teaching of personal hygiene through the Modern Health Crusade and Health Clubs, as it is being taught in some of the schools is slowly, but surely bringing results, especially noticeable in the lessening of skin diseases.

Yours truly,

ALICE B. MACINTOSH, R. N.

DEPARTMENT OF EDUCATION.

To the citizens of Berkley:

At the request of the school officials of your town, Mr. Arthur B. Lord of this department made a visit to your town for the purpose of surveying the situation with especial reference to possible consolidation of existing one-room schools.

In conference with Mr. Lord, I understand the following conditions to exist:

(1) There are six school buildings in the town, five being one-room buildings, located and housing pupils as follows:

Assonet Neck	Grades 1-7	17 pupils
Burt's Corner	Grades 1-8	41 pupils
Skunk Hill	Grades 1-8	21 pupils
Algeirene	Grades 1-8	13 pupils
Berkley Common	Grades 1-7	30 pupils
Total registration		122 pupils

(2) None of these buildings conform to accepted modern standards for lighting, heating, ventilation, and sanitation.

(3) With the exception of one building, all light is from both sides and the front.

(4) The seating in all these schools is of the obsolete double type which is no longer an approved method of seating.

(5) The toilet facilities are of the antiquated out door type and in a very bad condition.

(6) The grounds, except for the school at Berkley Common, are wholly inadequate.

It appears to me from the report I have had of the situation that careful consideration should be given to the possibility of consolidation of the five one-room schools herein named in a single building to be located on the site occupied by the school at Berkley Common.

It would seem to me possible to house the number of children (122) now attending the five one room schools in a single consolidated school of four rooms, with two grades in each room. This arrangement would make possible a better grading of the school and allow for growth up to approximately 150 children.

It appears, furthermore, that, with the school located at Berkley Common, the roads make the problem of transportation easy of solution. This will undoubtedly increase the regularity of attendance at school and reduce tardiness.

It might be of interest to your committee to know that of 21,500 teachers in the public schools of Massachusetts but 648 are teaching in one-room schools, and that the number of one-room schools is being decreased by approximately 20 each year. Only 3% of the pupils in the public schools of Massachusetts are attending school in a one-room building.

Very truly yours,

PAYSON SMITH,

Commissioner of Education

APPROPRIATIONS FOR 1924

Memorial Day,	\$40.00
Library	300.00
Care of Graves of Soldiers and Sailors of the Civil and Spanish Wars	100.00
Exterminating Gypsy and Brown Tail Moths	300.00
Support of Poor,	1,500.00
Incidental Expenses,	2,500.00
Town Officers,	1,500.00
Highways,	2,150.00
Oiling Roads,	1,500.00
Schools,	14,725.00

SELECTMEN'S REPORT

The town's fiscal year closed Dec. 31, all bills are paid but there is a note of \$2,000.00 against the town that is due March 20, 1925. There is a cash balance in the treasury of \$3,505.38.

The unpaid taxes including the interest due on same Dec. 31 amounts to \$5,393.09.

The town appropriated \$2,150.00 for general road work which is \$50.00 per mile, an amount necessary to put the town in a position to ask for state aid which can be granted under the "Small Town Act". With our present road valuation and by making the above appropriation, the State can give us the sum of \$3,225.00 which is equal to \$75.00 a mile, this was granted to us for 1924.

The town raised and appropriated \$1,500.00 for oiling roads and the state allotted an equal amount.

CHARLES H. MACOMBER,	} Select-
FRANS H. SILVAN,	
JAMES McCALL,	

men

TOWN WARRANT

For March 2, 1925

Article 1. To see if the town will appropriate any part of the dog fund to the Public Library and make what other appropriations that are necessary.

Article 2. To act on report of town officers.

Article 3. To fix compensation for collector and treasurer for ensuing year.

Article 4. To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 5. To choose all necessary town officers, one selectman for three years, one assessor for three years, one school committee for three years, one trustee of library for three years and one burial ground commissioner for three years, town treasurer for one year, collector of taxes for one year, auditor for one year, moderator for one year, tree warden for one year, seven constables for one year, three fish wardens for one year, three oyster wardens for one year and also to bring in your ballots on the question: "Shall licenses be granted for the sale of certain non-intoxicating beverages in this town?" The form of ballot shall be "Yes" or "No."

Article 6. To raise and appropriate sums of money for ways and bridges.

Article 7. To raise and appropriate a sum of money for schools, including supplies, high school tuition, salary of superintendent, transportation of scholars and repairs on public buildings.

Article 8. To see if the town will vote to remodel any old school buildings, or build new and appropriate money for same.

Article 9. To raise and appropriate a sum of money for support of poor, salaries of town officers, state aid and incidentals.

Article 10. To choose a memorial committee and appropriate a sum of money for same.

Article 11. To raise and appropriate a sum of money to be expended in suppressing the gypsy and brown tail moths.

Article 12. To raise and appropriate a sum of money to be used in the cemetery and care of graves of the civil and spanish war soldiers and sailors.

Article 13. To act on any other business that may come before the meeting.

Caucus Monday, February 24 at 7.30 P. M.

Town meeting Monday March 2 at 10 o'clock A. M.

School Calendar 1925

Winter term, 10 weeks, January 5 to March 13.

Spring term, 10 weeks, March 30 to June 5.

Fall term, 15 weeks, September 8, to December 18.

Holidays

New Year's Day, Washington's Birthday, Patriot's Day, Memorial Day, Columbus Day, Thanksgiving Day and the day following.

REPORT OF THE SCHOOL COMMITTEE

The School Committee recommends that the Town appropriate the sum of \$15,805 to run the schools for the year 1925.

We have itemized the above amount as follows:—

High School: Tuition, \$3,200.00; Transportation \$1,700.00

Elementary Schools: Teachers, \$7,200.00; Supt. salary and expenses, \$700.00; books and supplies, \$900.00; janitors, \$450; fuel, \$425; repairs, \$500.00; School Nurse, \$380.00; School physician, \$100.00; home transportation, \$125.00; continuation school, \$25.00; attendance officer, \$25.00; census officer, \$25.00; expenses of committee \$50.00.

Teacher's Names and Salaries

No. 1

Anna Gleason, Jan. to June,	
Salary per year,	\$950.00
Helyn Harkins, Sept. to Jan.	
Salary per year,	850.00

No. 2

Annie Birks, Jan. to June	
Salary per year	1,000.00
Louise Merriam, Sept. to Jan.	
Salary per year,	1,000.00

No. 3

Katherine McAloon, Sept. to Jan.

Salary per year, 750.00

No. 4

Mrs. Edith Chew

Salary per year

Jan. to June 750.00

Sept. to June 850.00

No. 5

Mildred Ashley, Jan. to June,

Salary per year, \$850.00

Louise Eddy, Sept. to Jan.

Salary per year, 750.00

No. 6

Sybil Cushman, Jan. to June

Salary per year, \$800.00

Mrs. Ruth Marshall, June to Sept.

Salary per year, 800.00

No. 7

Grammar

Addie Blood,

Salary per year, \$1,000.00

Primary

May McLear, Jan. to June

Salary per year 850.00

Mildred Ashley,

Salary per year 850.00

High School Pupils

Jan. to June

Gertrude Andrews, Kathryn Andrews, Bertha Ashley, Milton Babbitt, Russell Babbitt, Earland Brailey, Evelyn Brown, Hazel Campbell, Verne Colpitt, Blanche Comstock, Carlton Cummings, Beatrice Delano, Leslie Ferrier, Marion French, Kenneth Graham, Miriam Graham, Beatrice Haskell, Viola Parris, William Parris, Wallace Robbins.

Sept. to Jan.

Dorothy Andrews, Gertrude Andrews, Kathryn Andrews, Bertha Ashley, Russell Babbitt, Richard Babbitt, William Babbitt, Earland Brailey, Evelyn Brown, Myrtle Chase, Minnie Clark, Verne Colpitt, Frank Sybulski, David Dean, Marion French, Alice Gagnon, Kenneth Graham, Miriam Graham, Beatrice Haskell, Otis Haskell, Peter Murphy, Howard Parris, Viola Parris, William Parris, Michael Pasternak, Wallace Robbins, Ruby Winslow, Rita York, Leslie Ferrier, Stanley Ferrier, Concord Gagnon.

Town appropriation for schools	\$14,725.00	
Total expended for schools,	14,086.38	
Balance		638.62
Received from State	\$5,433.54	
Received from City of Taunton, tuition,	66.66	
Total		\$5,500.20

REPORT OF ATTENDANCE OFFICER

During 1924 I was called to investigate non-attendance, four times at No. 1, three times at No. 6, three times at No. 7.

Respectfully submitted,

STEPHEN A. DOW.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Berkley:

I have the honor of submitting to you this my first report as your Superintendent of Schools.

While I have been in contact with your schools but a short while, certain features are so obvious that a very brief period of observation is sufficient to justify a positive statement regarding them. I may also say that some recent observations by members of the State Department of Education, coincide with my own. The statement that follows is, therefore in respect to the condition of the buildings somewhat more than an individual opinion, although it is my own personal statement and commits no one else.

The schools of Berkley do not provide the children of the town with educational advantages equal to the average for the State. The specific ways in which the schools do not equal average conditions will constitute bulk of this report.

The school furniture in Berkley is decidedly poor. Some of it is of an ancient type unseen so far as I know anywhere else in this State. These seats, and others less archaic, are not adjustable. The result is that the larger portion of the children in town are in seats that do not fit them and can not be made to fit them. As sizes run, moreover, there is no way of changing the pupils around to remedy this condition. This means that school attendance is, at present producing actual physical damage to the children. A school condition that is a menace to the health of the children should not be tolerated.

The schools of Berkley are not properly lighted. No school room in town fully meets present legal requirements in this respect. Four schools have one half or less the amount of window area called for by their floor space. The remaining schools have less than three fourths the proper window area. In almost every case pupils face a light. We have here a condition the result of general practice when the present buildings were erected, but one never the less as bad as could be devised. No child can possibly escape some degree of eye strain and with many children this can not fail to have serious results. Here, as in the case of furniture we have a situation that really amounts to cruelty to children, unintended of course, and generally unrealized, but actual just the same. As in the case of furniture the same consideration determines proper procedure. A school condition that is a menace to the health of the children should not be tolerated. Only two buildings in Berkley have proper heating and ventilation. Proper heating means an even temperature throughout the room. Proper ventilation means a constant supply of fresh air, sufficient for each pupil, entering the room without draft or lowering the temperature, and the continuous removal from the room of enough used air to keep the room healthful. Except at Myricks and the Common there is no positive ventilation when the windows are closed and the heating is of the old stove type that makes parts of the room unbearably hot while other portions of the room are not comfortably warm. This is not what the children of Berkley deserve. Rooms so unevenly heated and entirely without positive ventilation do not meet standard health requirements and, as in the case of seats and lighting, the proper procedure is clear. A school condition that is a menace to the health of the children should not be tolerated.

By ignoring these conditions a tax payer might save some money in case he is not a parent. If he is a parent he is certain to pay much more for attempts to cure the injuries his child receives in school than it would cost him to remove the causes of the trouble. This is all aside, moreover, from considerations of kindness which would not willingly permit helpless children to suffer needless injury.

The schools of Berkley are not, on the whole, giving the education that they should. This is shown in a variety of ways to those familiar with school standards. One test generally understood by all, is preparation for High School. A recent investigation of those who had lately entered High School from this town showed two perfectly distinct groups, those clearly prepared, and those just as clearly not prepared. Looking up the schools from which the pupils came showed that every properly prepared pupil came either from a Taunton Grammar School to which his parents had sent him because of full understanding of the local situation, or from Myricks School. No pupil from any other Berkley School was fully prepared. The later class of pupils do as a rule finally become adjusted and go along in High School but it is due to their native ability, persistence of purpose and special attention in High School, and it is in spite of rather than because of their previous preparation. Undoubtedly more than one cause is operating in this situation, but it should be noted that the two classes of pupils are perfectly determined on the one basis of entering from ungraded one teacher schools or entering from schools at least somewhat graded. As a matter of fact—it is useless to expect the one teacher schools to give the same preparation as a graded school. It can not be done.

In the situation just discussed we find the great fundamental weakness of Berkley Schools. The children of

Berkley are at a most extreme disadvantage in being required to attend one-teacher-schools having all grades. Of such schools there are now but 151 left in the entire State. There are 682 such buildings in use, but they are largely used for certain grades only and are thus units in a system of graded schools. In fact, but one child in 200 in Massachusetts attends the type of school that is usual here. When $99\frac{1}{2}\%$ of all the children of the state are in a School organization better than the local one, the parents of Berkley have cause for serious thought regarding the futures of their children and no resident of the town can find in the situation any basis for pride or satisfaction.

The schools of Berkley receive much less than the average amount of financial support. In the local elementary schools during the year ending Dec. 31, 1923, the amount spent per pupil for support exclusive of general control was \$53.03. The State Average was \$81.63. Since school management is rarely extravagant, and all places get about what they pay for this difference of \$28.60 between local support per pupil and the State Average represents very exactly the relative disadvantage of Berkley children as compared with children elsewhere. This shows about how much children at large in the State get that Berkley children do not get. Berkley buys about 60% of the average amount of Education for its children.

An analysis of the items that make up school costs shows that the deficiency lies very distinctly in the cost of teaching. \$36.31 per pupil in Berkley against \$58.29 State Average. The remaining \$6.62 is made up from relatively low costs in janitor service, fuel, repairs and upkeep. These items in fact run over \$8.50 less per pupil than State Average but a relatively high transportation cost brings the net figure to \$6.62. It should also be noted that in the financial

year used for this report there was spent throughout the State for permanent repairs, alterations, new buildings and new equipment, and average of \$18.12 per pupil. In that year, Berkley, for these items, spent nothing. The particular ways, therefore, in which Berkley falls under the average are in providing cheaper instruction, contentment with present low standard school premises and facilities, poor attention to cleanliness in the schools, and not the best upkeep of the buildings. In regard to the last item however it should be pointed out that none of the buildings are leaky, dilapidated or in a tumble down condition. The defects are found in the condition of the interiors of the buildings. These conditions mentioned are clearly not the fault of the School Committee, they are providing the children with all that they can pay for out of the money provided them.

In connection with school costs it should be noted to what a large extent the education of Berkley children is paid for by State aid rather than by local taxes. As is the case with smaller towns generally, State reimbursement takes care of nearly all the cost of High School education. The average cost of \$149.00 for each of the 20 High School scholars of the town was reduced by State reimbursement to a net cost of but \$29.03 per pupil to the town. For all pupils High and Elementary the average expenditure was \$70.69 a piece of which \$39.10 was derived from local taxation and \$31.59 from State funds. The value to the children of the town of this aid is shown by the fact that while only 25 of the 355 towns in the State raise by taxation less per pupil than Berkley does there are 76 towns in the State in which the entire expenditure per pupil from all sources is less. State aid therefore raises the relative educational

advantages of the towns children, 51 towns or one seventh the entire list, above the point attained by local support.

In a place where the support of education is so largely a State expense rather than a local one. State authorities have not only a right but a positive duty to insist that the town itself shall do all in its own power to care properly for its children. The purpose of State reimbursement is to equalize educational opportunity. It is to provide the amount more required to give children average opportunity after a town that can not itself provide the average has fully met its own obligations in the matter. It is not intended to in any way relieve a town of its own educational obligations. The aim is entirely to make possible better schools for the benefit of the children and not to make indifferent schools cheaper for the benefit of the local taxpayers at the expense of all the other tax payers of the State.

As a matter of fact, State money is always a great relief to the local tax payer which is intended and proper under conditions of full meeting of obligations by the aided town. If Berkley should not receive State Aid the present school expenditures alone would call for a tax rate of about \$23.00 per \$1,000.00 of valuation and, other things remaining equal, that would mean a total tax rate for the town of about \$37.00. Clearly State School money is of vital importance to Berkley.

To return to the intended working out of State Aid. The average cost of support in the State is \$84.72 per pupil. Whether Berkley needs to spend as much as this per pupil or not, present State money as a matter of fact produces 37% of this amount—and the town could buy this amount of education for 63 cents on the dollar. As a further matter of fact since state aid is directly proportional to the amount paid by the town, if the town did spend \$84.72 per pupil

State Aid would be proportionally larger and the net cost to the town would be even less than 63 cents on the dollar. In the case of Berkley increases of teachers salary, in all instances but one, and any money spent for transportation, should the town centralize its schools, would all be directly chargeable to the figure upon which reimbursement is based. Clearly with the amount of aid given by the State, the town can properly be expected to raise enough to equal the difference between State aid per pupil and the cost per pupil of average educational advantages. This would not necessarily equal the State Average cost per pupil. Against the low amount per pupil raised by local taxation there will undoubtedly be placed the admittedly poor financial condition of the town. The real test of ability to support its schools is the amount of valuation that a town has for each pupil in its schools. Berkley has but \$3,848 of valuation per pupil. In this respect—there are but 30 localities worse off in the State. Berkley has for School purposes a tax rate of \$10.06 per thousand.

In regard to this condition of financial ability certain facts stand out. The rank of the town in the amount raised per pupil is lower than its rank in valuation per pupil. State Aid, as just pointed out, offsets the financial weakness of the town and makes average educational advantages within the reach of the town. Lastly of the thirty towns in the State less able to support schools than Berkley, 23 actually have a higher tax rate for education than Berkley. Of these 23 towns, 3 tax themselves more than Berkley but less than \$11.00 per thousand, 5 have a school tax rate of between \$11.00 and \$12.00, 6 a rate between \$12.00 and \$14.00, 7 a rate between \$14.00 and \$16.00, and two tax themselves for schools over \$16.00 per thousand. In view of the fact that all but seven of the towns poorer than Berkley actually

do tax themselves more for schools than does this town it can hardly be said that Berkley is now paying all that it possibly can. The town should frankly face reality in this matter and avoid confusion of willingness with ability.

At this point it might be well to state what there is in Berkley to be commended. There are several things of this sort. Considering conditions the progress of the children is remarkable. Teachers have shown great resourcefulness in overcoming a lack of adequate materials of instruction. Efforts towards professional growth made by some teachers through summer courses, extension courses and other means is worthy of distinct commendation. Progress made in care for the health of the individual pupil is most gratifying. The report of the School Physician covering the work done by him and the school nurse, and the progress that has resulted therefrom should be read and considered by all. (In this respect it seems to me, however, that constantly to locate and seek to remedy individual physical defects and not to remedy those housing conditions in the schools that are an unfailing and never ending source of just these individual defects would not be a particularly intelligent way of meeting the situation as a whole. The people of the town have a duty to perform in regard to these causes.) The interest in the schools shown by the School Committee and their invariable willingness to do all within their power to improve conditions, is distinctly a cause for satisfaction. There are many ways in which instruction can be improved in Berkley but there is no need for me to discuss them here because the regular school appropriation will care for these items and the School Committee is fully alive to the situation. In regard to these things there is nothing to be said therefore except that the town is fortunate in having a committee that will insure a steady improvement

in conditions so far as they are able to do so. There are therefore many things to commend in the Berkley School Situation.

In regard to other larger phases of the situation which are neither happy nor comforting the remedy is beyond the limits to which a School committee can very well go without distinct authorization and a specific appropriation by the town. Possibly the committee could attend to these affairs and the town would have to pay the bill but no committee would take any such action unless forced to do so by the absolute refusal of the voters to do their own duty in the matter.

The situation, bluntly put, is that—present conditions can not further continue. Something must be done by someone and that too at once. There is absolutely no room for any argument over something versus nothing in the situation. The only possible question is about which particular something shall be done.

In general two courses are open. One is to bring all the present buildings up to standard. This would be a costly process that would have to be met entirely out of the revenues of the year in what it is done, and when it is done, it leaves the town with the same type of organization 99½% extinct because of its manifest inferiority and also with educational progress about as far away as it was in the first place.

The other alternative is centralization. This gives the tax payer and his children something worth while for his money, a chance to spread the cost over several years so that the burden in any single year is not excessive, the benefit of a school system far more economical to run, an organization that can return full value received upon its operating costs which the present one absolutely can not

do, and a town asset that will tend to promote growth and raise land values in the town rather than a liability that will forever keep out of town the type of people that are most needed and desired if Berkley is to attain its possibilities. Berkley is too near Taunton not to grow as a residential community when once a perfectly good and sufficient reason for not living here has been removed. The tax payer should sharply distinguish between taxes that represent expense and taxes that are an investment in certain future prosperity.

I shall not enter into a detailed exposition of any scheme of centralization because I understand that a meeting of the citizens is to be called before this report will be in the hands of the voters and by the time this is read the details will already be familiar.

In order to act intelligently upon any proposition involving centralization the people must know the number of scholars in the town and where they are.

I add therefore the following statement of School membership by school and grade.

School	Grade	1	2	3	4	5	6	7	8	total
Burt's Corner		3	6	5	6	1	5	8		34
Common		5	2	5	5	5	3	2	2	27
Bridge		5	2				1	4		12
Neck		4	4	2	2	4	1	3	2	22
No. 5		3	3	5	3	0	3	1		18
No. 6		2	5	4	4	4	3			22
Myricks		13	4	7	5	8		6	7	50
		—	—	—	—	—	—	—	—	—
		35	26	28	25	22	16	24	9	185

In closing I wish to say that I have enjoyed my relations with the town so far and expect to continue to do so. I wish to thank all for the kind consideration that has been shown me and I request the same consideration for this report, I have no intention to find fault, complain or criticise harshly or unduly. It is my duty to report conditions as I find them. If they are not what they should be it is the right of the citizens to know it, and it is my business to tell them and to point out, so far as I am able, the way to better and more satisfactory conditions.

Respectfully submitted,

EDWARD L. HILL,

Supt. of Schools.

REPORT OF THE SCHOOL PHYSICIAN

To the School Committee.

During the early part of the year the schools at Myricks, Common and Burts Corner were much disturbed by two epidemics, one of whooping cough and one of mumps. At Myricks there were 24 cases of whooping cough and 15 cases of mumps, at Common 7 cases of mumps and at Burts Corner 23 cases of mumps.

Two examinations of the pupils were made with the assistance of the school nurse during the year. At these times 346 pupils were examined. 28 cases of enlarged tonsils were found, which ought to be removed, 6 of these have been operated upon. 71 cases of decayed teeth were found and only 12 cases have been corrected. A dental clinic is to be provided by the town during the ensuing year and we hope the parents will accept the opportunity to have the pupils' teeth treated. There were 17 cases of enlarged lymphatic glands of which 7 were suspicious of tuberculosis, 3 children needed glasses and obtained them.

Vaccination has been very much neglected during previous years, but it was very gratifying to have the parents so willing to fulfill the law when it was brought to their attention. 90 children were vaccinated.

On June 26 a health test for children who were to enter school in September and those who were so much underweight as to be suspicious of tuberculosis, was held at the Myricks school house. 31 pupils were examined 6 were

recommended for X-ray, several for re-examination in the fall and a number for removal of adenoids and tonsils. There were present besides the school physicians and school nurse Drs. Chas. W. Milliken and R. P. McKnight.

During the year Miss McIntosh, the school nurse, has made 130 calls at the school houses and 152 calls at the homes of the pupils. She has weighed and measured the children several times. At the beginning of the year she found 43 that were 10% to 21% below the average weight for their age and height. She has been very persevering in following up these cases, instructing and encouraging them in methods of caring for their health, so that at the end of the year only 20 are 10% or more below the average and only 1 has lost weight. Through her persistent efforts a few persons have availed themselves of the opportunities she has been able to offer for treating the children. We hope many more will consult this department and have their childrens' health put in better condition.

CHAS. A. BRIGGS, M. D.

School Physician.

December 1, 1924.

To the Board of Selectmen,

Mr. Charles H. Macomber, Chairman,
Berkley, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the accounts of the town of Berkley for the period from January 1, 1923 to September 30, 1924, made in accordance with the provisions of Section 40, Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Examiner of this Division, who was placed in charge of the work.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts

Schools	15,200.00
Berkley St.	1,000.00
Padelford St.	1,000.00

SELECTMEN'S REPORT

The state department of taxation has increased the valuation of the town from \$757,287.00 to \$993,568.00, which is an increase of \$236,273.00; this big increase in our valuation is bound to work to our disadvantage in several ways. It will make our State and County taxes more and it will make quite a difference in obtaining money for road purposes under the "Small Town Act". Our road valuation will change from \$18,030.00 to \$23,656.00 per mile, there are forty-two miles of highway in the town that comes under this Act. This does not include about a mile of State road on County Street. Under the old valuation we have been getting \$75.00 a mile from the Division of Highways, providing of course, that the town appropriated \$2,100.00, which is \$50.00 a mile. With this change in valuation it will be necessary for the town to appropriate \$3,150.00, which is \$75.00 a mile, in order to get help from the State. If the town will do this the Division of Highways can give us an equal amount.

There is a bill now pending in the legislature, if enacted, that will allow the State to give to small towns an amount double their own appropriation, if the towns meet with the requirements of the act.

In 1914 the town got her first allotment of road money from the State. Since then and up to the present time we have received from the State the sum of \$33,868.54 and from the County \$3,500.00, making a total of \$37,368.54; to this amount we can add the sum of \$1,000.00 presented to the town by Mr. Thomas P. Paull and expended on

Padelford Street. This generous and public spirited gift merits and receives the thanks of the entire inhabitants of the town.

The school house at the Common was destroyed by fire and the town at a meeting called for the purpose decided not to replace the old building, but to build a four room building instead, large enough to consolidate all the schools except Myricks.

The sum of \$22,000.00 was appropriated to build and furnish the school complete, \$2000 of the above amount was put into the tax levy this year and a loan for the balance of \$20,000.00 has been made with the Taunton Savings Bank. The town has issued ten notes of \$2000.00 each at 4%, these notes are to be paid me each year until the loan is liquidated.

Work on the new school house has progressed quite rapidly considering the weather conditions. It will be ready to occupy for the fall term of school.

Your board would recommend that some action be taken by the town to dispose of the old school buildings and lots. They can be sold and remodeled into dwelling houses and become a source of revenue to the town through taxes. The town should realize quite well from the sale of this property.

The town has a note of \$3000.00 to pay March 26, 1926. There is \$2715.04 in the treasury.

The unpaid taxes including the interest due December 31, 1925 amounts to \$4,281.46.

CHARLES H. MACOMBER	}	Selectmen
FRANS H. SILVAN		
JAMES McCALL		

TOWN WARRANT

For March 1, 1926

Article 1. To see if the town will appropriate any part of the dog fund to the Public Library and make what other appropriations that are necessary.

Article 2. To act on report of town officers.

Article 3. To fix compensation for collector and treasurer for ensuing year.

Article 4. To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 5. To choose all necessary town officers, one selectman for three years, one assessor for three years, one school committee for three years, one trustee of library for three years and one burial ground commissioner for three years, town treasurer for one year, collector of taxes for one year, auditor for one year, moderator for one year, tree warden for one year, seven constables for one year, three fish wardens for one year, three oyster wardens for one year and also to bring in your ballots on the question: "Shall licenses be granted for the sale of certain non-intoxicating beverages in this town?" The form of ballot shall be "Yes" or "No".

Article 6. To raise and appropriate sums of money for ways and bridges.

Article 7. To raise and appropriate a sum of money for schools, including supplies, high school tuition, salary of superintendent, transportation of scholars and repairs on public buildings.

Article 8. To see if the town will vote to change the present layout of road that runs to the shore through the property formerly owned by Charles E. Carr.

Article 9. To raise and appropriate a sum of money for support of poor, salaries of town officers, state aid and incidentals.

Article 10. To choose a memorial committee and appropriate a sum of money for same.

Article 11. To raise and appropriate a sum of money to be extended in suppresssing the gypsy and brown tail moths.

Article 12. To raise and appropriate a sum of money to be used in the cemetery and care of graves of the civil and spanish war soldiers and sailors.

Article 13. To act on any other business that may come before the meeting.

Caucus Tuesday, February 23rd at 7:30 P. M.

Town meeting Monday March 1 at 10 o'clock A. M.

AUDITOR'S REPORT

OF THE

School Committee

OF THE

TOWN OF BERKLEY

FOR THE

Year Ending December 31, 1925

SCHOOL COMMITTEE

Miss Myra H. Dean	Term expires 1928
Noah H. Strange	Term expires 1927
Stephen A. Dow	Term expires 1926

Organization

Stephen A. Dow, Chairman Miss Myra H. Dean, Sect'y.

Superintendent of Schools

E. L. Hill, No. Dighton

School Physician

Dr. Charles Briggs
Assonet

School Nurse

Alice B. MacIntosh, 390 Cohannet St., Taunton, Mass.

School Calendar 1926

Winter term, 10 weeks, Jan. 4 to March 12.

Spring term, 10 weeks, March 22 to June 4.

Fall term, 15 weeks, Sept. 7 to Dec. 17.

Holidays

New Year's Day, Washington's Birthday, Patriot's Day, Memorial Day, Columbus Day and the day following.

High School Pupils

Jan. to June

27

Dorothy Andrews, Gertrude Andrews, Kathryn Andrews, Bertha Ashley, Richard Babbit, Evelyn Brown, Minnie Clark, Frank Cybulski, David Dean, Alice Gagnon, Kenneth Graham, Miriam Graham, Beatrice Haskell, Otis Haskell, Peter Murphy, Howard Parris, Viola Parris, Wallace Robbins, Reta York, Marion French, William Parris, Earland Braley, Ruby Winslow, Carlton Cummings, Verne Colpitt, Blanche Comstock, Myrtle Chase.

Sept. to Jan.

31

Kathryn Andrews, Miriam Graham, Kenneth Graham, Beatrice Haskell, Viola Parris, Wallace Robbins, Dorothy Andrews, Gertrude Andrews, Richard Babbit, William Babbit, Minnie Clark, David Dean, Alice Gagnon, Peter Murphy, Howard Parris, Rita York, Ruby Winslow, Alfred Anderson, Gerald Braily, Frank Cybulski, Hilda DeCosta, Russel Dickinson, Eva Gagnon, Otis Haskell, Michael Pasternak, Isabel Patterson, Gwendolyn Peterson, Lillian York, Myrtle Chase, Evelyn Brown, Marjorie Campbell.

REPORT OF THE SCHOOL COMMITTEE

The School Committee recommends that the Town appropriate the sum of \$15,825.00 to run the schools for the year 1926.

We have itemized the above amount as follows:—

High School: Tuition, \$3,000.00; Transportation \$2,100.00.

Superintendent, \$700.00; teachers, \$6,000.00; books and supplies, \$800.00; janitors, \$500.00; fuel, \$600.00; repairs, \$150.00; nurse, \$400.00; physician, \$100.00; home transportation, \$1,400.00; Continuation School, \$25.00; attendance officer, \$25.00; census, \$25.00.

Town appropriation for 1925	\$15,800.00
Expended	14,933.64
Balance	\$866.36

For further financial report, see treasurer's report.

Teachers

No. 1

Helyn Harkins, Jan. to June,	
Salary per year,	\$850.00
Helen McManus, Sept. to Jan.	
Salary per year	900.00

No. 2

Louise Merriam, Jan. to June	
Salary per year	1,000.00
Elizabeth Brady, Sept. to Jan.	
Salary per year	900.00

No. 3

Katherine McAloon	
Salary,	750.00

No. 4

Mrs. Edith Chew, Jan. to June	
Salary per year	850.00
Mrs. Helen M. Andrews, Sept. to Jan.	
Salary per year	750.00

No. 5

Louise Eddy, Jan. to June	
Salary per year	750.00
Mary E. Callery, Sept. to Jan.	
Salary per year	800.00

No. 6

Mrs. Ruth Marshall	
Salary	800.00

No. 7

Mildred Ashley	
Salary	850.00

REPORT OF ATTENDANCE OFFICER

During 1925 I was called to investigate non-attendance, once at No. 1, twice at No. 2, twice at No. 4, twice at No. 7, six times at No. 5.

Respectfully submitted,

STEPHEN A. DOW.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Berkley:

I have the honor of presenting my second annual report as your Superintendent of Schools.

The outstanding event of the year is the actual start on a four room building on the site of the old Berkley Common School, with the resulting certainty that this is the last year of present conditions. The children of Berkley will have school facilities that compare favorably with those of other places. After a year or two of the new conditions, when it has been demonstrated that good schools do not involve prohibitive expense and that they do involve a real return value for the money spent, I am sure that hardly a person in town would consider for a moment a return to old conditions.

This year the work of equipping the present schools has been done with future conditions in mind. The object has been to have, so far as possible, in the present schools, an equipment that, would be, when brought together, adequate and suitable for the new building without needless duplication of those items that go according to teachers or grades rather than according to the number of pupils involved.

While the new building meets present needs, I wish to point out that it would not care for more than a limited increase in school population. The Town should consider carefully the probability of an increased school population

in any locality, before the building now serving that area is sold. Schools closed at a time of consolidation sometimes become needed again, and their sale proves to be a costly mistake. While some of the present buildings are unlikely to be required again, the school at Burt's Corner, is, in my opinion, one that will probably be needed at some future time as a primary school, and a similar need could easily develop in the No. 6 district.

I wish to close this report with an expression of my appreciation of the pleasant relations that I have enjoyed with all citizens and officials of the town, and to express also the satisfaction with which I anticipate the near future time when conditions will allow a Superintendent of Schools to make such use of the portion of his time belonging to the town as efficient service requires.

Respectfully submitted,

EDWARD L. HILL,

Supt. of Schools

ANNUAL HEALTH REPORT

To the School Committee.

The school nurse, Miss Alice B. MacIntosh has done excellent work during the year 1925 working hard at school houses and in the homes that visible results might be accomplished. She made 103 school visits and 129 visits to the homes of the scholars urging the parents to look more carefully to the nourishment of the children to overcome the condition of underweight and all the ills, lack of ambition, energy and strength attending it. In April the weighing showed 20 children, and in September 21 children were $10\frac{3}{8}$ or more underweight.

Besides the underweights the following reasons called her to the homes,— to give instruction to parents of 20 children in the method of cleaning heads of lice; 10 visits to children staying home for severe colds; 5 each for eye troubles, chicken pox, tonsillitis; 3 for swollen glands; 2 each for appendicitis, skin eruptions, ear trouble; 1 each for acute nephritis, pneumonia, boils, dog-bite,

During the months of February, March, April and May a dental clinic was conducted by Dr. Charles A. Teeden of Taunton as dentist. During these months 95 children were treated, 91 had their teeth cleaned, 86 teeth were extracted and 29 cavities had silver fillings.

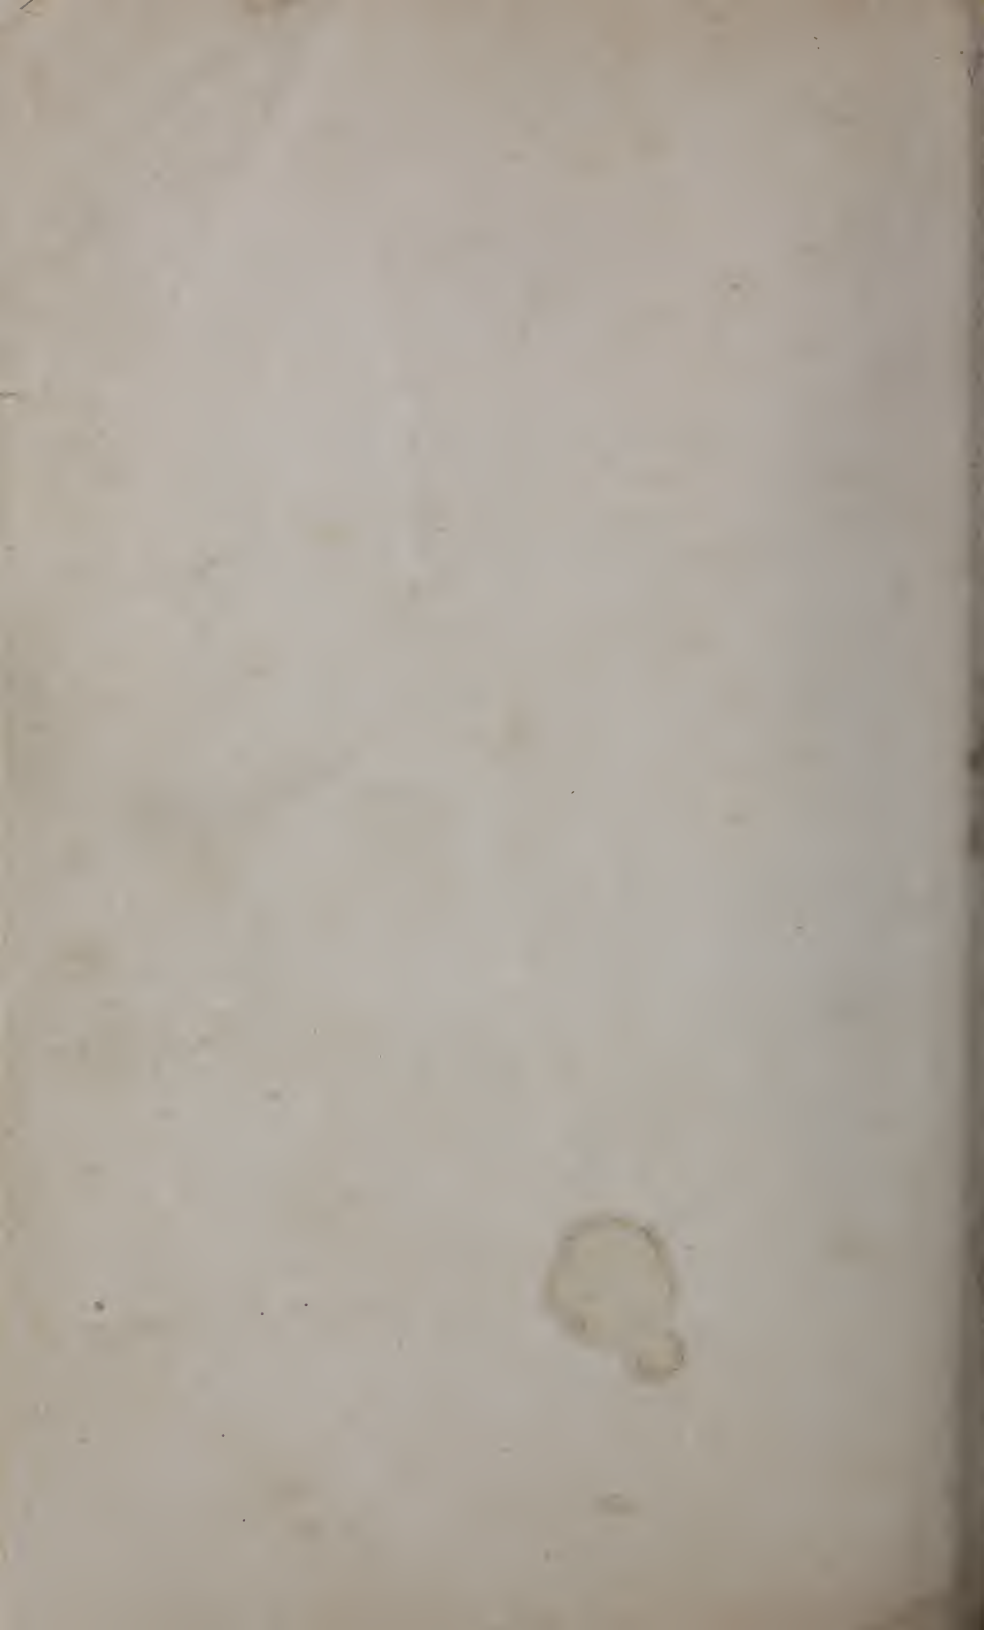

In June a pre-school clinic for the examination of children intending to enter the schools in September. At this clinic held in the Library building 21 children were examined with the following findings, 13 with carious teeth, 5 with enlarged tonsils, 4 with adenoids, 7 with enlarged

cervical glands, 1 with heart disease, 1 to have X-ray examination, 1 to be under observation for a year for tuberculosis.

During the year Miss MacIntosh was instrumental in having 3 children fitted with eye glasses, and eight operations for the removal of tonsils and adenoids. An emergency case was brought at Burt's Corner with money raised by the pupils and a sum of money for health fund was raised by pupils of Assonet Neck by giving a Health Play.

CHAS. A. BRIGGS, M. D.

School Physician

Myricks St.	2,000.00
Oiling	1,500.00
School House Note	2,000.00

SELECTMEN'S REPORT

The Legislature of 1926 passed an act amending chapter 81 of the General Laws, which will be of great benefit to small towns, as it provides for a larger expenditure of money by the state for the repair and improvement of town ways.

The following: are extracts from the General Laws in regard to the disbursement of money for the repair and improvement of town ways as amended and approved May 5, 1926.

Chapter 81 General Laws Section 26. There may be expended for the repair and improvement of public ways, other than state highways, in towns having valuations of less than four million dollars, as established by the last preceding valuation made for the purpose of apportioning the state tax, and in which the proportionate amount paid by such towns of every million dollars of such tax as so established, divided by the number of miles of such public ways, hereinafter known as the road mileage ratio, is less than twelve dollars, such sums not exceeding one hundred dollars per mile as the general court may appropriate therefor; provided, that such towns shall contribute or make available for use in connection therewith the following amounts for each mile of such public ways within their respective limits, according to the following schedule based on their road mileage ratio:—

1. Less than one dollar and forty cents, fifteen dollars.
2. One dollar and forty cents and less than two dollars, twenty five dollars.

3. Two dollars and less than two dollars and eighty cents, forty dollars.
4. Two dollars and eighty cents and less than three dollars and fifty cents, fifty dollars.
5. Three dollars and fifty cents and less than five dollars and fifty cents, seventy dollars.
6. Five dollars and fifty cents and less than seven dollars, one hundred dollars.
7. Seven dollars and less than nine dollars, one hundred and twenty five dollars.
8. Nine dollars and less than twelve dollars, one hundred and fifty dollars.

The amounts appropriated as aforesaid and contributed by the towns shall be expended under the direction of the division on such ways as the division and the selectmen of the town may agree upon.

Said chapter eighty-one is hereby further amended by striking out section twenty-nine and inserting in place thereof the following:—SECTION 29. The division shall determine, as nearly as possible, the number of miles of such public ways in towns entitled to the benefits under section twenty-six, and shall inform the selectmen of such towns of the contributions required from them under said section.

The extracts from chapter eighty-one have been embodied and made a part of this report, for the benefit of all that are interested in having good roads, and who may desire a better understanding of just what is required of the town in order to get help from the state.

For maintenance under this act, the town must appropriate the sum of \$2100.00 to be in the control of the selectmen, who shall make application to the state, and the

division of public works may appropriate \$4200.00 which is one hundred dollars a mile for every mile of road in the town that comes under this act.

There has been contributed to the town for road improvement up to the present time from the following sources:

Commonwealth	\$40,568.54
County of Bristol	4,500.00
Thomas P. Paull	2,080.00
Horace N. Macomber	200.00
	\$47,348.54

Horace N. Macomber gave to the town the land taken to straighten a turn in the road on Berkley street.

The town has a note of \$2,000.00 that has to be paid March 25, 1927.

The uncollected taxes amounts to \$4,471.61.

Our town counsel have examined the records at the registry of deeds and they advise that they do not find anything to prevent the town from selling all of the old school-houses.

CHARLES H. MACOMBER	} Selectmen
FRANS H. SILVAN	
JAMES McCALL	

TOWN WARRANT

For March 7, 1927

Article 1. To see if the town will appropriate any part of the dog fund to the Public Library and make what other appropriations that are necessary.

Article 2. To act on report of town officers.

Article 3. To fix compensation for collector and treasurer for ensuing year.

Article 4. To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 5. To choose all necessary town officers, one selectman for three years, one assessor for three years, one school committee for three years, one trustee of library for three years and one burial ground commissioner for three years, town treasurer for one year, collector of taxes for one year, auditor for one year, moderator for one year, tree warden for one year, seven constables for one year, three fish wardens for one year, three oyster wardens for one year and also to bring in your ballots on the question: "Shall licenses be granted for the sale of certain non-intoxicating beverages in this town?" The form of ballot shall be "Yes" or "No".

Article 6. To raise and appropriate sums of money for ways and bridges.

Article 7. To raise and appropriate a sum of money for schools, including supplies, high school tuition, salary of superintendent, transportation of scholars and repairs on public buildings.

Article 8. To raise and appropriate a sum of money for support of poor, salaries of town officers, state aid and incidentals.

Article 9. To choose a memorial committee and appropriate a sum of money for same.

Article 10. To raise and appropriate a sum of money to be extended in suppressing the gypsy and brown tail moths.

Article 11. To raise and appropriate a sum of money to be used in the cemetery and care of graves of the civil and spanish war soldiers and sailors.

Article 12. To act on any other business that may come before the meeting.

Caucus Tuesday, February 14 at 7:30 P. M.

Town meeting Monday March 7 at 10 o'clock A. M.

 The Leach Fund (interest to Jan. 1,		
1927)	\$1,010.19	

The Treasurer's accounts are correct and I found on file all necessary orders of the Selectmen for money paid out.

The Town owes one note of \$2,000.00 for temporary loan, due in March. Also nine notes of \$2,000.00 each, one note due each year, for the new school building.

I have examined the Collector's accounts and find they are correct. The outstanding taxes have been verified by a notice sent postpaid to each delinquent stating the amount of tax due and a request that the Auditor be notified at once if not correct.

RUTH F. SOULE,

Auditor.

ERVINE A. CHACE,	

REPORT OF MOTH INSPECTOR

To the Selectmen of the Town of Berkley.

I herewith submit my first annual report as Moth Inspector. At the time of my appointment the following property belonging to the Town of Berkley was turned over to me.

8 Poles	2 Cutting Poles
1 Ladder -(Broken)	1 Rake
2 Small Saws	1 Cross-Cut Saw
1 Hand Pump (Broken)	5 Lengths of old Hose
7 State Books	1 Pair Glasses
½ Drum Creosote	1 Pair Line Men Spurs
1 Spray Tank & Engine	

The above mentioned property is now (December 31, 1926) in my possession and also One Drum of Creosote and Three Lengths of Hose.

The Town appropriated for moth work	\$400.00
For Work from Property Holders	135.50
From State Highways	39.95
From the State	300.00

\$875.45

Total Amount Expended	864.22
-----------------------	--------

Balance Unexpended	\$11.23
--------------------	---------

The Town's liability for 1927 moth work is \$397.43

WILLIAM V. REED,
Moth Inspector.

REPORT OF FOREST WARDEN

To the Selectmen of the Town of Berkley:

I herewith submit my first annual report as Forest Warden.

Upon receiving my appointment; acting under your orders I asked my predecessor to turn over to me all of the property in his possession belonging to the Town of Berkley.

I received from him and his deputies the following:

33 Extinguishers (Two not in working order).	
24 Water Cans	2 Water Pots
12 Shovels	1 Carboy of Acid
1 Carboy (Empty)	29 Acid Bottles
40 Lbs. Soda	

On December 31, 1926 I have on hand the following:

35 Extinguishers	24 Water Cans
1 Carboy of Acid	1 Carboy (Empty)
80 Acid Bottles	350 Lbs. Soda
6 Pump Sprays	1 Axe
2 Water Pots	12 Shovels
36 Porcelain Stoppers	

I have attended the following fires:

17 Forest Fires	2 House Fires
3 Automobile Fires	3 False Alarms

There has been expended for equipment and supplies	\$109.08
The Town has paid for labor fighting fires	589.09

I have collected fines for setting fires without a permit and paid to the Town Treasurer \$5.00.

I would suggest the purchase of an extension ladder for house fires.

The Fire Deputies and their Telephone numbers.

Ervine A. Chace Taunton 1439-M.

Albert F. Bassett Taunton 998-2.

Frans H. Silvan Taunton 1198-22.

Harry O'Brien Taunton 998-22.

WILLIAM V. REED, Forest Warden.

Tel. Taunton, 299-13.

ANNUAL REPORT

OF THE

School Committee

OF THE

TOWN OF BERKLEY

FOR THE

Year Ending, December 31, 1926

SCHOOL COMMITTEE

Miss Myra H. Dean	Term expires 1928.
Noah H. Strange	Term expires 1927.
Stephen A. Dow	Term expires 1929.

Organization

Stephen A. Dow, Chairman Myra H. Dean, Secretary

Superintendent of Schools

Edward L. Hill, North Dighton

School Physician

Dr. Charles Briggs, Assonet.

School Nurse

• Mrs. Josephine Dunham, 5 Highland Terrace, Taunton

School Calendar 1926

Winter Term, 10 weeks, Jan. 3 to March 11.

Spring Term, 11 weeks, March 31 to June 3.

Fall Term, 15 weeks, Sept. 6 to Dec. 16.

HIGH SCHOOL PUPILS

January to June

Dorothy Andrews, Gertrude Andrews, Kathryn Andrews, Alfred Anderson, Richard Babbitt, William Babbitt, Gerald Brailey, Evelyn Brown, Marjorie Campbell, Minnie Clark, Myrtle Chase, Frank Cybulski, Hilda De Costa, David Dean, Eva Gagnon, Alice Gagnon, Kenneth Graham, Miriam Graham, Otis Haskell, Peter Murphy, Isabel Patterson, Gwendolyn Peterson, Howard Parris, Viola Parris, Ruby Winslow, Lillian York, Reta York.

September to January

Evelyn Brown.

Seniors—Viola Parris, Wallace Robbins.

Juniors—Dorothy Andrews, Gertrude Andrews, Minnie Clark, David Dean, Alice Gagnon, Howard Parris, Ruby Winslow, Reta York.

Sophomores—Alfred Anderson, Richard Babbitt, William Babbitt, Gerald Brailey, Frank Cybulski, Hilda De Costa, Russell Dickinson, Peter Murphy, Isabel Patterson, Gwendolyn Peterson, Lillian York.

Freshmen—Dorothy Brown, Marjorie Campbell, Dorothy Carr, Arlow Dow, Eva Gagnon, Russell Haskell, Bertha Hathaway, Ethel Phillips, Elna Silvan, Leon Soule, Adelin Souza, Mary Souza, Ruth Talbot, Gladys Westgate, Ruth Delano.

SCHOOL EXPENDITURES

Teachers	\$6,616.43
Superintendent	665.45
High School Tuition	1,332.50
Nurse	392.40
Books	886.84
Repairs	113.54
Fuel	579.68
Incidentals	468.55
High School Transportation	2,786.19
Janitors	670.65
Town Transportation	1,575.00
	\$16,087.23

REPORT OF THE SCHOOL COMMITTEE

The School Committee recommends that the Town appropriates the sum of \$23,650 to run the schools for 1927.

We have itemized the above amount as follows:

Superintendent, \$700.00; Teachers, \$6,300.00; Books and Supplies, \$800.00; Janitors, \$950.00; Fuel, \$700.00; Repairs, \$300.00; Nurse, \$400.00; Dentist, \$50.00; Physician, \$100.00 Home Transportation, \$3,800.00; Attendance Officer, \$25.00; Census, \$25.00; High School Tuition, \$6,500.00; Transportation, \$3,000.00.

Teachers

January to June

No. 1	Helen McManus—Salary per year	\$900.00
No. 2	Elizabeth Brady—Salary per year	900.00
No. 3	Katherine McAloon—Salary per year	750.00
No. 4	Helen M. Anderson—Salary per year	750.00
No. 5	Mary E. Callery—Salary per year	800.00
No. 6	Ruth Marshall—Salary per year	800.00
No. 7	Addie M. Blood—Salary per year	1,200.00
No. 8	Mildred Ashley—Salary per year	850.00

September to January

Grammar School

Addie M. Blood—Salary per year	\$1,300.00
Ruth U. Chadwick—Salary per year	1,000.00
Mary E. Whelan—Salary per year	900.00
Elizabeth Brady—Salary per year	950.00

Myricks School

J. Violet Murray—Salary per year	\$1,100.00
Mildred Ashley—Salary per year	900.00

REPORT OF ATTENDANCE OFFICER

During 1926 I made about fifteen calls to investigate non-attendance, tardiness, etc.

It is difficult for me to give an exact report as it is hard to tell where the duties of Attendance Officer leave off and those of School Committee begin.

Respectfully submitted,

STEPHEN A. DOW.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Berkley:

I have the honor of submitting my third annual report as your Superintendent of Schools.

The outstanding feature of the present year is the fortunate fact that we started school last September in the new building.

Concerning this building a few facts should be stated.

It is an example of a large amount of excellent building for a small amount of money that so far as I know has not been equalled. A cost of \$7,000 per room is considered rock bottom in school house construction. The building cost the town at least one third less than what is usually regarded as the lowest possible figure. In spite of this fact the building is of unusually strong construction, all weight is carried upon steel to concrete or solid brick supports. The minor defects that have developed are fewer in number and less serious in nature than is generally the case with new buildings regardless of cost. The type of construction is such that all defects that will occur are now present. There are no unpleasant surprises to come in the future, also, the building is giving excellent satisfaction right now just as it is before the minor defects are remedied as they soon will be. The work of the schools is at present the best that I have seen in the town. The improvement over the former situation in the single room school houses is greater than any one could realize who was not directly acquainted with both conditions. Some improvements are as follows.

The attendance is better. The children are getting more education because they are getting more schooling. Each child is getting more attention than before in some cases twice as much. This is because each teacher has but two grades and has time enough to hold classes for more than the five or ten minutes that used to be all that was available for any single class exercise. Of course the most important factor in determining the value of a school day is the amount of time and attention that the pupil himself gives to his own business, but the effectiveness of this factor is directly influenced by the amount of help and supervision that is given by the teacher. There is no question as to the improvement in this respect. A day in school now is certainly worth vastly more than it was formerly.

The children have the advantage of modern equipment. When the contents of the old schools were brought together it gave a collection marvelous for variety, but not conspicuous for utility to a large extent the new school is operating on new equipment. Berkley has today a thoroughly modernized school. This does not mean that the school is completely equipped. We are merely caring for needs not future ones. As classes complete present tasks working materials must be produced for the tasks following. There will be much to do along these lines for some time to come.

Before leaving this topic I must point out that the gains from consolidation are due chiefly to the excellent teaching force in the new building. The new venture could not have fallen into better hands. The way the building, in spite of incompleteness when school started, and other handicaps that a less competent teaching force would not have overcome, became an attractive home like place, and the quickness with which the school became an efficient working organization, were truly wonderful. All concerned are

entitled to credit and to the thanks of the town. In particular it should be stated that the success of the undertaking has been due to a principal who knows the town well and how to conduct a school unusually well, and also to a janitor whose interest and efforts in behalf of the school have been conspicuously above anything that could be reasonably expected.

Questions are frequently asked as to the extent of State aid. The money comes in amounts, the details of which are complicated. In general, the aid for local schools amounts to one third the salaries of teachers, one third the cost of transportation and about \$30.00 per school room for running expenses. For High School the amount covers practically the entire cost of tuition and transportation.

The report of the School Committee contains the High School enrolment. The enrolment in the local schools is as follows:

Grade	1	2	3	4	5	6	7	8	Total
Berkley Grammar	21	24	18	16	20	21	9	12	141
Myricks	17	10	10	8	6	3	8	0	62

In conclusion I again wish to thank all with whom I have come in contact for continued pleasant relationships. I hope that my work in town has been as valuable to community as it has been agreeable to me.

Respectfully submitted,

EDWARD L. HILL,

Superintendent of Schools.

REPORT OF SCHOOL PHYSICIAN

To the School Committee:

The schools of Berkley have been visited and all the pupils present examined twice by the physician, once during the spring term and once during the fall term. The health and hygiene of the schools were supervised by Miss Alice B. MacIntosh until the close of the term in June, and by Mrs. Josephine Dunham from September until the end of the year.

During Miss MacIntosh's service she made 43 school visits, 47 home visits, 18 pupils were excluded from the schools for lice, 6 for chicken pox, 1 nasal cold, 1 measles, 1 was fitted to glasses, 1 was taken to the dentist in the city. In September 1925, there were 21 children 10% or more underweight, in January 1926, only 11. All of these improved up to the time of closing the schools in June except two.

The follow up work included visits to the homes, to learn the condition of children absent from school. She found children absent from the following causes, pediculosis, pneumonia, colds, appendicitis, jaundice.

Two children were taken to a clinic in Freetown for the removal of tonsils and adenoids.

A Health Play was given at the Common in May to raise a sum of money for Dental Clinics. The receipts netted \$8.00. Five Dental Clinics were held in the town, No. treated 55, including 32 silver fillings, and 26 extractions.

In September, Mrs. Josephine Dunham took over the work. During the last four months of 1926 she has made

46 school visits, 22 home visits, 380 individual examinations. The following defects were found, viz. enlarged tonsils and adenoids 10, enlarged cervical glands 1, hip disease 1, bad posture 1, eyes defective 9, two were corrected, ears 3. One tonsil and adenoid case was operated upon at the Morton Hospital, Whooping cough 1, 192 scholars were weighed and measured. Underweight 10% or more 26. Defective teeth 25. The nurse also has given 6 health talks.

APPROPRIATIONS FOR 1927

Library	\$250.00
Memorial Day	40.00
Gypsy Brown Tail Moths	400.00
Care of Graves of Soldiers and Sailors of the Civil and Spanish Wars	100.00
Roads	2,100.00
Oiling Roads	1,500.00
Myricks St.	3,000.00
Bay View Ave.	400.00
Schools	24,000.00
Incidental Expenses	3,300.00
Support of Poor	1,000.00
Town Officers	1,700.00
Fencing New School House Lot	300.00
School House Note	2,000.00

SELECTMEN'S REPORT

The valuation of the town is \$974,187.00, the highest it has ever been.

Cash in the treasury December 31, \$1,166.77.

The uncollected taxes amount to \$7,918.42.

There is a note of \$5,000.00 to be paid April 1, 1928, and eight school-house notes of \$2,000.00 each, one to be paid yearly.

Some action should be taken towards a better collection of taxes, so that our current expenses can be paid without having to carry over notes to the next year.

The town received from the sale of the old school houses \$1,603.90.

Electricity from the City of Taunton has been extended to Myricks, an effort should be made to get it to Assonet Neck.

CHARLES H. MACOMBER	}	Selectmen
FRANS H. SILVAN		
GEORGE A. STEDMAN		

TOWN WARRANT

For March 5, 1928

Article 1. To see if the town will appropriate any part of the dog fund to the Public Library and make what other appropriations that are necessary.

Article 2. To act on report of town officers.

Article 3. To fix compensation for collector and treasurer for ensuing year.

Article 4. To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 5. To choose all necessary town officers, one selectman for three years, one assessor for three years, one school committee for three years, one trustee of library for three years and one burial ground commissioner for three years, town treasurer for one year, collector of taxes for one year, auditor for one year, moderator for one year, tree warden for one year, seven constables for one year, three fish wardens for one year, three oyster wardens for one year and also to bring in your ballots on the question: "Shall licenses be granted for the sale of certain non-intoxicating beverages in this town?" The form of ballot shall be "Yes" or "No".

Article 6. To raise and appropriate sums of money for ways and bridges and road equipment.

Article 7. To raise and appropriate a sum of money for schools, including supplies, high school tuition, salary of superintendent, transportation of scholars and repairs on public buildings.

Article 8. To raise and appropriate a sum of money for support of poor, salaries of town officers, state aid and incidentals.

Article 9. To choose a memorial committee and appropriate a sum of money for same.

Article 10. To raise and appropriate a sum of money to be extended in suppressing the gypsy and brown tail moths.

Article 11. To raise and appropriate a sum of money to be used in the cemetery and care of graves of the civil and spanish war soldiers and sailors.

Article 12. To act on any other business that may come before the meeting.

Caucus Tuesday, February 13 at 7:30 P. M.

Town meeting Monday March 5 at 10 o'clock A. M.

	\$79,528.13
The Leach Fund (interest to Jan. 1928)	\$1,060.69

The Treasurer's accounts are correct and I found on file all necessary orders of the Selectmen for money paid out.

The Town owes one note of \$5,000.00 for temporary loan, due April 1st, 1928, also eight notes of \$2,000.00 each, one note due each year, for the new school building.

I have examined the Collector's accounts and find they are correct. The outstanding taxes have been verified by a notice sent postpaid to each delinquent, stating the amount of tax due and a request that the Auditor be notified at once if not correct.

RUTH F. SOULE,

Auditor.

ERVINE A. CHACE,

Town Clerk.

LIBRARY BASEMENT REPORT

Your trustees are pleased to report, that due to the interest of the librarian, the circulation of books has increased during the past year.

The library has received a valuable addition to its shelves. Mr. Levi Crane, a native of Berkley, has presented the library with a number of interesting books including Civil War records and a history of Berkley in earlier days.

Mr. Crane, gave also his uniform, gun and other equipment used during the Civil War. The trustees are planning to purchase a case in which these mementos will be preserved.

It seems to us that Mr. Crane's contribution should be the beginning of a record of Berkley's early days and the history of her first families.

We welcome any mementos of these days and will guard them carefully that they may remain intact for the use of future generations.

Berkley has much to be proud of in her share of the history of Massachusetts and the Union and for the sake of the present and future generations we urge you to help us to unearth these records and mementos and make them the property of the town.

Let us thank Mr. Crane for his generosity and show our appreciation of his gift by enlarging our store of records and treasures.

ANNUAL REPORT

OF THE

School Committee

OF THE

TOWN OF BERKLEY

FOR THE

Year Ending, December 31, 1927

SCHOOL COMMITTEE

Myra H. Dean	Term expires 1928
Stephen A. Dow	Term expires 1929
Harry J. Gaffney	Term expires 1930

Organization

Stephen A. Dow, Chairman Myra H. Dean, Secretary

Superintendent of Schools

Edward L. Hill, North Dighton

School Physician

Dr. Charles Briggs, Assonet

School Nurse

Mrs. Josephine Dunham, 5 Highland Terrace, Taunton

REPORT OF THE SCHOOL COMMITTEE

The School Committee recommends that the Town appropriates the sum of \$21,800 for school expenses for 1928.

Superintendent	\$700.00
Teachers	6,300.00
Books & Supplies	800.00
Janitors	900.00
Fuel	700.00
Repairs	300.00
Health	550.00
Home Transportation	3,800.00
Attendance Officer	25.00
Census Officer	25.00
High School Tuition	4,000.00
High School Transportation	3,500.00
Incidentals	200.00
	\$21,800.00

SCHOOL CALENDAR, 1927

Winter Term, 10 weeks, Jan. 3 to March 9.

Spring Term, 11 weeks, Mar. 26 to June 8.

Fall Term, 15 weeks, Sept. 4 to Dec. 14.

HIGH SCHOOL PUPILS

January to June

Evelyn Brown	Dorothy Carr
Dorothy Brown	William Babbitt
Richard Babbitt	Dorothy Andrews
Wallace Robbins	Eva Gagnon

Elizabeth Brady—Salary per year	1,000.00

Myricks School

Millicent B. Hackett	1,100.00
Mildred Ashley	925.00

REPORT OF ATTENDANCE OFFICER

During 1927 I have made ten calls to investigate non-attendance. Most of these calls were made at three places so the actual cases have been less than usual. May the work continue.

Respectfully submitted,

STEPHEN A. DOW.

Berkley, Oct. 31, 1927

To the Supt., Mr. Hill and the
School Committee of Berkley:

It is with much pleasure that I submit to you my eighteenth annual school census.

In looking over the old reports I find that in 1909 we had 210 children from five to fourteen and in the present year (1927) we have exactly the same number.

SCHOOL CENSUS 1927

Boys	5-7	19
Girls	5-7	21
Boys	7-14	80
Girls	7-14	90
Boys	14-16	26
Girls	14-16	18
Boys	total	125
Girls	"	129

Respectfully,

NOAH H. STRANGE,

Census Enumerator

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Berkley:

I have the honor of submitting my fourth report as your Superintendent of Schools.

This is the second year of consolidation. To all who are in touch with actual conditions, the advantages of the present organization are increasingly evident. Since I discussed this subject in my last report I will not repeat the topic this year. Instead, I invite the citizens of Berkley to investigate the subject for themselves by visiting schools.

Very few parents visit our schools. The teachers wish that people would come in. For such visits there are several reasons.

About one-third of all local taxes goes for schools. The citizens are surely entitled to know from first hand direct observation just what they are buying at this figure. Possibly more than a mere privilege is here involved. It might, at any rate, be argued that citizens are under some obligation to see for themselves what is done with their money. I shall not argue the point. I leave the decision to the judgment of the people who pay the bill. I will state that those who spend the money, the School Committee and the Superintendent, would like it better if the people would give what we are doing their constant and careful scrutiny by regular school visitations.

Aside from financial considerations, there is no single thing that people can do, that is more helpful to the schools than constantly visiting them. The work of the children is very directly influenced by their attitude towards school. The children in a school regularly visited always consider

school work to be much more important and interesting than the children do in a school seldom visited. This difference in viewpoint makes a large difference in results, very ordinary ability, under the urge of strong interest, will regularly outdo much greater ability without enthusiasms. The citizens of any community can, if they will, quickly lift their schools to a high plane of efficiency. To do so people need only to visit regularly, and let the children see that what they are doing is important enough for older people to be interested in it. I wish the citizens of Berkley would try this out. It would help tremendously.

Speaking from my own visits, I feel that I can make a very encouraging report. Our equipment provides for regular diagnostic tests that show definitely both the standing of classes and the progress of individual pupils. Upon the basis of these tests I am glad to state, as a matter of established fact rather than of merely personal opinion, that the school work being done is both creditable now and promising for the future. Our schools are sound and improving.

In the maintainance of good schools in Berkley the help that State Aid gives should be recognized. Berkley has in valuation per pupil but 36% of the State average. Of all the towns and cities of the Commonwealth 96% are better able to support schools. If the amount raised by local taxation were the only funds available the support per pupil would be but 40% of the average for the State. Due to the aid received from the General School Fund, however, the actual support in Berkley is 77% of this average.

Comparison with Dighton, a town that receives no particular State Aid beyond that received by every municipality including cities, is enlightening. Against the 40% average support raised by Berkley, Dighton raises 82% of the average. When, however, total support from all

sources is compared, Dighton children receive but 76% of the State average against 77% in Berkley. This means that 82% of the average school tax plus no State Aid amounts to 1% less than 40% of the average tax plus State Aid. What the equalization fund does for Berkley is very clear from these figures.

At this time, I wish to point out the crowded condition of the Myricks School. There are no more pupils there than a two room school should hold. The trouble is that the room built on some years ago is of nothing like standard size. All that can be done to make this room larger has now been done. The old entries for the room have been turned into it by tearing down their walls. Nothing remains but to make this part of the building either longer or wider. Should rumors of industrial revival at Myricks materialize, the need for some change will be imperative. I mention the matter now in order that such a contingency may be met with a well thought out plan. Such conditions should not come as surprises.

In closing I wish to thank the towns people, the School Committee and the teachers for their kindness and unfailing co-operation.

Respectfully submitted,

EDWARD L. HILL,

Supt. of Schools.

REPORT OF SCHOOL HEALTH SUPERVISION

One annual examination of the scholars attending school in the town during the year 1927 by the school physician. The defects found at this time were 33 pupils with decayed permanent teeth, 10 with enlarged tonsils and adenoids, and 2 with enlarged cervical glands. At the dental clinic 31 pupils were treated by the school dentist. The school physician also attended a pre-school clinic at which were Dr. R. P. MacKnight, School Nurse and Mr. Edward L. Hill, Supt. of Schools. 16 children were examined physically and mentally. 3 children went to the Health School at Attleboro, who showed improvement for the time spent there.

A Tuberculosis Clinic was held by the State, 28 children were examined with the following result,—Positive Tuberculosis 1, Mal-nutrition 5. 28 received the tuberculin test and 7 were X-rayed.

During the year Mrs. Josephine Dunham, School Nurse made 108 school visits; weighed 371, finding 12 who were 10% underweight. 79 visits were made at the homes to see children absent on account of sickness, 5 cases of scarlet fever and 6 of whooping cough were found. 25 health talks were given in the schools, great stress was made upon the care of the teeth and diet and it was very gratifying to find such enthusiasm among the children in carrying out the advice and suggestions. This was the first year of systematic teeth cleaning and reporting with most excellent results. One child was fitted with glasses.

Myricks St.	2,000.00
Jerome St.	1,000.00
School House Note	2,000.00

SELECTMEN'S REPORT

It affords us great pleasure to place before you our annual report, and it is with pride we look on the work we have been doing. If after reading the report you have any questions to ask, do not hesitate to see us, as we are always ready to give any information we can to promote the welfare of Berkley, as this space does not permit all.

By a careful examination of the treasurer's report, we find the Town in poor financial condition and we sincerely hope the tax rate may be reduced, although there are some things that will have a tendency to make them higher; therefore, a careful expenditure of money at your Town Meeting will help lower same.

All our public buildings are in good condition, except the Town Hall, which needs painting and some minor repairs outside. The Berkley & Dighton Bridge was repaired this year at a cost of: \$1,485.83. Berkley's share 3/10 and Dighton's 7/10. The Myricks road has been completed by the Canady Construction Co., and we know it is a road the Town can be proud of. A like proposition on Berkley St. is before the Town at present; if the Town will spend \$5000, we have assurance the County and State will do the same, in order that the road may be completed or nearly so in one year.

GEORGE A. STEDMAN }
SILAS BRALEY } Selectmen

TOWN WARRANT

For March 4, 1929

Article 1. To see if the town will appropriate any part of the dog fund to the Public Library and make what other appropriations that are necessary.

Article 2. To act on report of town officers.

Article 3. To fix compensation for collector and treasurer for ensuing year.

Article 4. To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 5. To choose all necessary town officers, one selectman for three years, one assessor for three years, one school committee for three years, one trustee of library for three years, and one burial ground commissioner for three years, town treasurer for one year, collector of taxes for one year, auditor for one year, moderator for one year, tree warden for one year, seven constables for one year, three fish wardens for one year, three oyster wardens for one year and also to bring in your ballots on the question: "Shall licenses be granted for the sale of certain non-intoxicating beverages in this town?" The form of ballot shall be "Yes" or "No".

Article 6. To raise and appropriate sums of money for ways and bridges.

Article 7. To raise and appropriate a sum of money for schools, including supplies, high school tuition, salary of superintendent, transportation of scholars and repairs on public buildings.

Article 8. To raise and appropriate a sum of money for support of poor, salaries of town officers, state aid and incidentals.

Article 9. To choose a memorial committee and appropriate a sum of money for same.

Article 10. To raise and appropriate a sum of money to be extended in suppressing the gypsy and brown tail moths state liability 404.96.

Article 11. To raise and appropriate a sum of money to be used in the cemetery and care of graves of the civil and spanish war soldiers and sailors.

Article 12. To see if the town will raise and appropriate a sum of money for the construction of Berkley Street, said sum to be used in conjunction with sums allotted by the State and County or to take any action relative thereto and vote that there be raised and appropriated the sum of \$5000 for the construction of Berkley Street, said sum to be used in conjunction with sums allotted by the State and County, and to meet said appropriation that there be raised in the tax levy of the current year the sum of \$1000, and that the treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow a sum not to exceed

\$4000 and to issue bonds or notes of the town therefor, said bonds or notes to be payable in accordance with the provisions of Section 19, Chapter 44 General Laws, so that the whole loan shall be paid in not more than five years from the date of issue of the first bond or note, or at such earlier dates as the treasurer and Selectmen may determine.

Article 13. To act on any other business that may come before the meeting.

Caucus Monday, February 11 at 7:30 P. M.

Town meeting Monday March 4 at 10 o'clock A. M.

SUPERINTENDENT OF STREETS REPORT

To The Citizens of the Town of Berkley:—

At the annual town meeting in 1928 the following money was appropriated for roads. \$3600 for general repairs, \$2000 for oiling, \$1000 for Jerome St., \$1000 for Padelford St., \$500 for Bay View Ave. We received from the state \$4,200 for general repairs and \$2,000 for oiling.

The cement bridge on Berkley St. cost \$750 which was taken from money for oiling. This work was done by Candedy Construction Co.

The money was spent approximately as follows;

\$1000 on Jerome St., special

\$1500 Bay View Ave.

\$1000 Padelford St., special

\$ 457 " " general

\$ 350 Bryant St.

\$1200 Berkley St.

\$ 158 Anthony St.

The balance was for tar, and oil on old and new roads, rebuilding of four culverts, scraping, buying new tools and repairing old tools and general care of roads.

This money is under state supervision except special appropriation. The policy of the state is to build new roads.

I recommend the town make a special appropriation of \$1000 this year for repairing some of the worst places on old roads.

Respectfully submitted,

LAWRENCE B. SWIFT,

Supt. of Streets.

CEMETERY COMMISSIONERS

Cemetery Commissioners recommend that the Town buy a piece of land adjacent to said Cemetery as there is only two lots left in the yard.

L. A. SWIFT, Commis.

AUDITOR'S REPORT

Berkley, Mass., Jan. 1929

Cash on hand Jan. 1929,		3,407.29
		\$102,387.30

The Leach Fund (interest to date) is \$1,112.30

The Treasurer's accounts are correct and I found on file all necessary orders of the Selectmen for money paid out.

The Town owes two notes one for \$5,000.00 and one for \$5,700.00 both due April 10, 1929, also seven notes of \$2,000.00 each, one note due each year, for the new school building.

I have examined the Collector's accounts and find they are correct. The outstanding taxes have been verified by a notice sent postpaid to each delinquent, stating the amount of tax due and a request that the Auditor be notified, at once, if not correct.

JOHN Q. DILLINGHAM,

Auditor.

ANNUAL REPORT

OF THE

School Committee

OF THE

TOWN OF BERKLEY

FOR THE

Year Ending, December 31, 1928

SCHOOL COMMITTEE

Stephen A. Dow	Term expires 1929
Harry J. Gaffney	Term expires 1930
Myra D. Anthony	Term expires 1931

Organization

Myra D. Anthony, Chairman Stephen A. Dow, Secretary

Superintendent of Schools

Edward L. Hill, North Dighton

School Physician

Dr. Charles Briggs, Assonet

School Nurse

Mrs. Josephine Dunham, 33 William St., Fairhaven

SCHOOL CALENDAR, 1929

Winter Term, Jan. 7 to March 15.

Spring Term, March 25 to May 31.

Fall Term, Sept. 9 to Dec. 20.

REPORT OF THE SCHOOL COMMITTEE

The School Committee recommends that the Town appropriate the sum of \$21,950 for school expenses for 1929.

Superintendent	\$700.00
Teachers	6,300.00
Books and Supplies	600.00
Janitors	800.00
Fuel	800.00
Repairs	450.00
Health	650.00
Home Transportation	4,200.00
Attendance Officer	25.00
Census Officer	25.00
High School Tuition	3,800.00
High School Transportation	3,400.00
Incidentals	200.00
	\$21,950.00

HIGH SCHOOL PUPILS

January to June

Dorothy Andrews	Eva Gagnon
Minnie Clark	Mary Souza
Alice Gagnon	Russell Haskell
Ruby Winslow	Ethel Phillips

Marion G. Chace " " "	900.00

Music Supervisor

Mary C. Fopiano, Salary per week	\$6.00
----------------------------------	--------

REPORT OF ATTENDANCE OFFICER

For the year 1928 I am glad to report still further decline in needless nonattendance.

If the average attendance does not show a gain it has been because of unavoidable reasons, rather than indifference on the part of parents or children.

Respectfully submitted,

STEPHEN A. DOW.

Berkley, Oct. 29, 1928

To the Supt., Mr. Hill and the School Committee of Berkley:

I have the honor of submitting to you my nineteenth annual school census.

Boys	5-7	25
Girls	5-7	23
Boys	7-14	71
Girls	7-14	82
Boys	14-16	24
Girls	14-16	18
Boys	Total	120
Girls	"	123

Respectfully,

NOAH H. STRANGE,

Census Enumerator.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Berkley:

I have the honor to submit my fifth annual report.

This year I have no radical changes to report and no innovations to suggest. Berkley has a well organized school system, modern equipment, capable and conscientious teachers, and the schools are producing results most credible to the children and their teachers. This seems to have become an almost habitual annual remark upon my part, but it expresses a fact and I repeat it here without apology and sincerely hope that I may with equal warrant repeat it again in the year to come.

The apparently outstanding characteristic of the Berkley school situation is the variability of the school population. At the time of my report last year, the School at Berkley Common was far from overcrowded, whereas the Myricks School was severely handicapped for room. Last year, in fact, I said something about the town considering an addition to the Myricks School. This year conditions in respect to the two schools are precisely the reverse. Myricks has ample room and Berkley Common is accommodating its children, only by means of classes passing from room to room, in order to equalize the teaching load of the teachers involved. The point is, the school population of Berkley is at just that point where a few families entering town or leaving town, or moving from one part of the town to another, can radically change the entire situation in respect to both school accommodations and transportation. This is manifestly a condition over which no one has any control

and about which nothing can be done, except to meet conditions as they arise. The school department is adjusting itself to changing circumstances to the best of its ability, and, we hope, so far as is possible, satisfactorily.

At this time I should certainly venture no recommendation regarding school addition, because it is entirely probable that any recommendation made today would become ridiculous before a chance to act upon it could be taken.

I wish to express my regret over the illness and therefore necessary leave of absence of Miss Blood the principal of the Berkley Grammar School. Credit for the present smooth running of the school must be given both to Miss Blood, for creating during her presence an organization that can function in her absence, and also to Mrs. Unsworth who, as acting principal is carrying forward the program and policies of the absent principal.

There was but one change in the regular teaching staff this year, where one capable teacher was followed by another capable teacher, and everything has gone along with the smoothness and effectiveness that has characterized the school since its opening.

I believe the town should be particularly complimented upon its forward step in its care of the health of its children. We are now definitely in the fore ranks of towns in regard to medical inspection and dental care.

In closing I wish to again express my appreciation of the superb treatment that I received from all with whom my duties have brought me in contact. I have learned to know Berkley as a town of real folks. It is a pure pleasure to be, at least in part, one of you.

Respectfully submitted,

EDWARD L. HILL.

REPORT OF SCHOOL PHYSICIAN

Number of children examined	183
Defects as follows were found	
Carious permanent teeth	20
Heart Disease	2
Goitre	1
Enlarged cervical glands	4
Enlarged tonsils and adenoids	3

Number of children examined at the pre-school clinic 20

Defects noted,

Curvature of spine, 1 which received treatment during the summer.

Number re-examined at T. B. Clinic 2, both improved.

Mrs. Josephine Dunham, School Nurse, besides helping at examination of pupils at schools and clinics reports as follows:

Number of School visits	108
Number of home-calls	92
Number of individual examinations	855
Number of talks to children	50
Conferences with teachers	75

Every child was enrolled as Modern Health Crusader; 125 were awarded the title of Squire by keeping such health habits as were required.

Supervised lunch hour was started in October with very good results at Berkley Common. The children were required to wash their hands before eating their lunch.

The children's appearance seems very much improved and Mrs. Dunham wishes to thank the teachers for their cooperation in health education.

79 permissions were obtained for inoculation with diphtheria prevention serum, which will be done, we hope, in the near future.

57 were treated at the dental clinic.

3 children were taken to Lakeville by Mrs. Dunham, and were X-rayed, for tuberculosis.

1 boy went to Attleboro Health Camp, coming back very much improved.

CHAS. A. BRIGGS, M. D.

School Physician.

	\$39,895.00

SELECTMEN'S REPORT

We have the honor to submit the accompanying report of the receipts and expenditures of the town of Berkley for the year ending Dec. 31, 1929.

With the creation of an effective budget system and the adoption of legislation which will as far as humanely possible prevent the vitiation of that system through political maneuvering, is absolutely imperative if the finances of our Town are to be properly and effectively administered. The budget system contained in the municipal finance act of 1913 was an admirable one but we believe its provisions have been disregarded or circumvented by local officials.

It seems apparent that this town is rapidly drifting toward the chaotic condition which existed generally in towns prior to the passage of the municipal finance act. The trouble has been and still is that municipal officers for popularity and often for personal political reasons, too often yield to the temptation or the glamour to spend undue amounts of money without present and conservative plans and provisions for payment. The result leads to constantly increasing indebtedness. We Selectmen believe that no town is too small to have a budget which will set forth a comprehensive picture of the needs of the various departments and accompanying this statement of the probable effect upon the tax rate. The budget also should be a statement showing the true financial condition of the town, so that the inhabitants will know exactly where they stand in the matter of local finances, the budget having been made up in advance and adopted the valuation now directly determines the tax rate.

We urge a thorough investigation of the advantages and workings of this plan.

GEORGE A. STEDMAN
SILAS E. BRAILEY
BENJAMIN A. PHILLIPS

TOWN WARRANT

For March 10, 1930

Article 1. To see if the town will appropriate any part of the dog fund to the Public Library and make what other appropriations that are necessary.

Article 2. To act on report of town officers.

Article 3. To fix compensation for collector and treasurer for ensuing year.

Article 4. To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 5. To choose all necessary town officers, one selectman for three years, one assessor for three years, one school committee for three years, one trustee of library for three years and one burial ground commissioner for three years, town treasurer for one year, collector of taxes for one year, auditor for one year, moderator for one year, tree warden for one year, seven constables for one year, three fish wardens for one year, three oyster wardens for one year and also to bring in your ballots on the question: "Shall licenses be granted for the sale of certain non-intoxicating beverages in this town?" The form of ballot shall be "Yes" or "No."

Article 6. To raise and appropriate sums of money for ways and bridges.

Article 7. To raise and appropriate a sum of money for schools, including supplies, high school tuition, salary of superintendent, transportation of scholars and repairs on public buildings.

Article 8. To raise and appropriate a sum of money for support of poor, salaries of town officers, state aid, incidentals, interest, Fire Dept. and Reserve Fund.

Article 9. To choose a memorial committee and appropriate a sum of money for same.

Article 10. To raise and appropriate a sum of money to be extended in suppressing the gypsy and brown tail moths state liability 404.96.

Article 11. To raise and appropriate a sum of money to be used in the cemetery and care of graves of the civil and Spanish war soldiers and sailors.

Article 12. To see if the town will raise and appropriate a sum of money for the construction of Berkley Street, said sum to be used in conjunction with sums allotted by the State and County, or to take any action relative thereto and .

Vote. That there be raised and appropriated the sum of \$5000 for the construction of Berkley Street, said sum to be used in conjunction with sums allotted by the State and County, and to meet said appropriation that there be raised in the tax levy of the current year the sum of \$1000, and that the treasurer, with the approval of the selectmen, be and hereby is authorized to borrow a sum not to exceed \$4,000 and to issue bonds or notes of the town therefor,

said bonds or notes to be payable in accordance with the provisions of Section 19, Chapter 44, General Laws, so that the whole loan shall be paid in not more than five years from the date of issue of the first bond or note, or at such earlier dates as the treasurer and selectmen may determine.

January 28, 1929

Article 13. To see if the town will vote to accept Chapter 807 Acts of 1913, of the revised laws which gives the selectmen authority to insure all town employees under the Workmen's Compensation Act.

Article 14. To see if the town will vote to authorize the Selectmen or Moderator to appoint a committee to investigate and recommend to the next annual town meeting what action the town should take in regard to the establishment of a larger town forest.

Article 15. To see if the town will vote to raise a sum of \$75.00 to plant fifty shade trees along some of our new roads, planting to be done by the Tree Warden in cooperation with the Town Forest Committee.

Article 16. To see what action the town will take on the following petition. We the undersigned petition that the town of Berkley appropriate the sum of one thousand dollars (\$1000) to be spent on the extension of Bayview Avenue Roadway. There are twenty-two voters signed on the petition.

Article 17. To raise and appropriate \$1000 for Padel-ford Street work as usual.

Article 18. To see what action the town will take in regards to buying a World War Veterans Memorial to be placed on the common.

Article 19. To see if the town will appropriate a sum of money to repair the driveway in front of the library.

Article 20. To see if the town will take any action and appropriate a sum of money to enlarge or repair the Berkley common school grounds.

Article 21. To act on any other business that may come legally before the meeting.

Article 22. Shall a citizens caucus be held previous to the annual Town meetings?

Caucus Monday, February 24 at 7.00 P. M.

Town meeting Monday March 10 at 10 o'clock A. M.

CEMETERY COMMISSIONERS

To see if the town will buy land at the North Cemetery or buy lots at the Fox Cemetery.

LINNEUS C. WHITAKER,

Commissioner

AUDITOR'S REPORT

Berkley, Mass. Jan. 1930.

LIZZIE HOWLAND, Trustee.

The Treasurer's accounts are correct and I found on file all necessary orders of the Selectmen for money paid out.

The Town owes one note for \$6,000.00 due April 10, 1930, also six notes of \$2,000.00 each, one note due each year, for the new school building.

The Leach Fund (interest to date) is \$1,168.60.

I have examined the Collector's accounts and find they are correct. The outstanding taxes have been verified by sending a notice, postpaid, to each of the delinquents, stating the amount of tax due and a request that the Auditor be notified, at once, if not correct.

JOHN Q. DILLINGHAM,

Auditor.

Girls		27	93	16
Boys	Total	138		
Girls	"	136		

NOAH H. STRANGE,

Census Enumerator.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Berkley.

It is a pleasure to present another report as your Superintendent of Schools.

The outstanding feature this year, as last year, is the large and changing enrollment of the school at Berkley Common. At all times there are pupils enough to require special adjustments of classes to the rooms, and at some times the number of children involved is so large as to make this a real difficulty. The situation is one of frequent change. Just now matters are relatively comfortable. Should the larger numbers now occasional become permanent the town would face a real problem.

This year your committee has improved the building at the Common. Water from the well is piped into the building and a small tank and electric pump gives running water and a drinking fountain.

The changes in the teaching force this year were three in number; two in room teachers at the Common and one in Music Supervisor. The town is fortunate to have secured Miss Hood and Miss Mache as teachers who are well able to carry along the work of the School according to established standards.

Mrs. Glynn left us after Christmas to take a full time position. The music instruction has been taken over by Mrs. Snow who had enough spare time from similar work in other towns to care for our needs in this respect.

While Miss Blood has not been able to act as Principal at the Common this year, the results of her previous work remain with us and her duties are being splendidly carried on by Mrs. Unsworth.

With new busses last September, transportation seems to have become satisfactory to pupils, parents and the School Department.

Nothing of greater importance has happened in Berkley for some time than the formation this year of two Parent-Teachers Associations connected respectively with the Schools at the Common and at Myricks. Both organizations are alive, active and very helpful, and from them much of value will come.

The Schools received this year several very acceptable gifts. At the Common we received an organ from a friend in Taunton also two victrolas and records, one from Mrs. Robert S. Howland and the other from Mrs. Charles Zucchi.

At Myricks the Parent Teachers Association provided the school with a radio, some essential playground equipment and a first aid cabinet, besides sponsoring milk for underweight children.

I wish to draw attention to the reports of the School Physician and school dentist. The results in each case are unusually fine and a source of great satisfaction to all concerned.

I am pleased to be able to again close my report with an expression of appreciation for the pleasant relations that have existed between me and the town. For this I am sincerely grateful.

Respectfully submitted,

EDWARD L. HILL,

Supt. of Schools.

ANNUAL REPORT OF SCHOOL PHYSICIAN AND SCHOOL NURSE

Number of children over 10% underweight:

Berkley Common School

In September	11	In December	11
--------------	----	-------------	----

Myricks School

In September	9	In December	6
--------------	---	-------------	---

Number of children at camp

Number of children examined at T. B. Clinic

Number of children examined at Pre-School Clinic

Defects found at Pre-School Clinic

Number of home calls

Number of children examined by School Physician	108
---	-----

Defects found: Poor Tonsils	8	Curvature of Spine	2
-----------------------------	---	--------------------	---

Poor Glands	10	Heart Defects	1
-------------	----	---------------	---

Eye Defects	6	(2 Eye Defects were corrected)	
-------------	---	--------------------------------	--

Number of children receiving Toxin-Antitoxin treatment	136
--	-----

Number of children receiving Schick Test	113
--	-----

Result of Toxin-Antitoxin treatment as shown by Schick Test:

All school children tested proved to be successfully immunized against Diphtheria. One pre-school child not given the Toxin-Antitoxin tested susceptible.

Number of children receiving milk of the Myricks School	40
---	----

Number that have gained from the milk	38
---------------------------------------	----

This milk is sponsored by the Parent Teachers Association of the Myricks School.

Health May Day was observed in all schools. Health tags were awarded for posture, normal weight and good teeth.

CHARLES A. BRIGGS, M. D.

School Physician.

JOSEPHINE DUNHAM, R. N.

School Nurse.
